

Student Data (Form OSHA-182) information collection. The Occupational Safety and Health Act of 1970 (OSH Act) authorizes the OSHA to conduct education and training courses. See 29 U.S.C. 670. These courses must educate an adequate number of qualified personnel to fulfill OSH Act purposes; provide personnel with short-term training; inform students of the importance and proper use of safety and health equipment; and train employers and workers to recognize, to avoid, and to prevent unsafe and unhealthful working conditions. The OSHA Training Institute provides basic, intermediate, and advanced training and education in occupational safety and health for Federal and State compliance officers, OSHA professionals and technical-support personnel, employers, workers, organizations representing workers and employers, educators who develop curricula and teach occupational safety and health courses, and representatives of professional safety and health groups.

A student attending OSHA Training Institute courses completes Form OSHA-182 on the first day of class. The Form collects information under five major categories: course information, personal data, employer data, emergency contacts, and student groups. The OSHA uses information provided on the Student Data Form to contact a designated person in case of an emergency, to prepare certain OSH Act-required reports, tuition receipts, to evaluate training output, and to make decisions regarding program/course revisions, budget support, and tuition costs. OSH Act section 21 authorizes this information collection. See 29 U.S.C. 670.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0172.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2017. The DOL seeks to extend PRA authorization for this

information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 29, 2016 (81 FR 67010).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0172. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Aerial Lifts Standard information collection requirements specified in regulations 29 CFR 1926.453. More specifically, the information collection requirement in the Aerial Lifts Standard is a certification provision found in paragraph (a)(2). This provision requires an Occupational Safety and Health Act (OSH Act) covered employer subject to the Standard who modifies an aerial lift for a use not intended by the lift manufacturer (*i.e.*, a "field modified aerial lift") to obtain from that manufacturer, or an equivalent entity (such as a nationally-recognized laboratory), a written certificate stating that: (1) The modification conforms to applicable ANSI A92.2-1969 and OSHA Aerial Lifts Standard provisions and (2) the modified aerial lift is at least as safe as it was before modification. OSH Act sections 2(b)(9), 6, and 8(c) authorize this information collection. See 29 U.S.C. 651(b)(9), 655, and 657(c).
