

the economy. 81 FR 43338, 43368. Thus, postponing the effectiveness of the Rule will not cause any appreciable economic harm to the general public. In fact, the interests of all royalty beneficiaries will be enhanced by the regulatory certainty provided by the postponement, as discussed above. In contrast, the regulated community will suffer harm without the postponement, especially if the Rule is later invalidated by the Court. If the Rule is invalidated, the regulated community would not only incur the unreimbursable costs of reverting back to the old system, but would also incur the substantial costs of correcting its reports and royalty payments for each production month.

In sum, in light of the existence and consequences of the pending litigation, and given the potentially irreparable harm that could result if the 2017 Valuation Rule is immediately implemented, ONRR has determined that the public interest and justice requires postponing the effectiveness of the 2017 Valuation Rule until the litigation is resolved.

Accordingly, pursuant to Section 705 of the Administrative Procedure Act, 5 U.S.C. 705, ONRR has postponed the effectiveness of the Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Final Rule pending judicial review.

Dated: February 22, 2017.

Gregory J. Gould,
Director, Office of Natural Resources Revenue.

BILLING CODE P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 80 and 95

[WT Docket No. 14-36; FCC 16-119]

Marine Radio Equipment and Related Matters

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of effective date.

SUMMARY: In this document, the Federal Communications Commission (Commission) announces that the Office of Management and Budget (OMB) has approved, for a period of three years, information collection requirements adopted in the Commission's Report and Order, FCC 16-119. This document is consistent with the Report and Order, which stated that the Commission would publish a document in the

Federal Register announcing OMB approval and the effective date of the rules.

DATES: The rule amendments to 47 CFR 80.233, 80.1061, 95.1402 and 95.1403, published at 81 FR 90739, December 15, 2016, are effective on February 27, 2017.

FOR FURTHER INFORMATION CONTACT:

Cathy Williams by email at Cathy.Williams@fcc.gov and telephone at (202) 418-2918.

SUPPLEMENTARY INFORMATION: This document announces that, on February 13, 2017, OMB approved information collection requirements contained in the Commission's Report and Order, FCC 16-119, published at 81 FR 90739. The OMB Control Number is 3060-1227. The Commission publishes this notice as an announcement of the effective date of those information collection requirements.

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on February 13, 2017, for the information collection requirements contained in 47 CFR 80.233, 80.1061, 95.1402, 95.1403, as amended in the Commission's Report and Order, FCC 16-119. Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060-1227.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-1227.
OMB Approval Date: February 13, 2017.

OMB Expiration Date: February 29, 2020.

Title: Sections 80.233, Technical Requirements for Automatic Identification System Search and Rescue Transmitter (AIS-SART) Equipment, 80.1061, Special requirements for 406.0–406.1 MHz EPIRB Stations, 95.1402, Special Requirements for 406 MHz PLBs and 95.1403, Special Requirements for Maritime Survivor Locating Devices.

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 80 respondents; 80 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: Third party disclosure requirement and on-occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154, 303 unless otherwise noted.

Total Annual Burden: 80 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: The information collections contained in these rule sections require manufacturers of certain emergency radio beacons to include supplemental information with their equipment certification application which are due to the information collection requirements which were adopted by the Federal Communications Commission in FCC 16-119 on August 30, 2016. Manufacturers of Automatic Identification System Search and Rescue Transmitters (AIS-SARTS), 406 MHz Emergency Position Indicating RadioBeacons (EPIRBs), and Maritime Survivor Locating Device (MSLDs) must provide a copy of letter from the U.S. Coast Guard stating their device satisfies technical requirements specified in the IEC 61097-17 technical standard for AIS-SARTs, or Radio Technical Commission for Maritime Services (RTCM) Standard 11000 for 406 MHz EPIRBs, or RTCM Standard 11901 for MSLDs. They must also provide a copy or the technical test data, and the instruction manual(s). For 406 MHz PLBs manufacturers must include documentation from COSPAS/SARSAT recognized test facility that the PLB satisfies the technical requirements specified in COSPAS-SARSAT Standard C/S T.001 and COSPAS-SARSAT Standard C/S T.007 standards and documentation from an independent test facility stating that the PLB complies RTCM Standard 11010.2. The information is used by Telecommunications Certification Bodies (TCBs) to determine if the devices meets the necessary international technical standards and insure compliance with applicable rules. If this information were not available, operation of marine safety equipment could be hindered threatening the ability of rescue personnel to locate vessels in distress.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 001005281-0369-02]

RIN 0648-XF218

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2017 Commercial Accountability Measure and Closure for Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements an accountability measure (AM) to close the hook-and-line component of the commercial sector for king mackerel in the Florida west coast southern subzone. This closure is necessary to protect the Gulf of Mexico (Gulf) king mackerel resource.

DATES: This rule is effective 12:01 a.m., local time, February 25, 2017, through June 30, 2017.

FOR FURTHER INFORMATION CONTACT: Kelli O'Donnell, NMFS Southeast Regional Office, telephone: 727-824-5305, email: kelli.odonnell@noaa.gov.

SUPPLEMENTARY INFORMATION: The fishery for coastal migratory pelagic fish includes king mackerel, Spanish mackerel, and cobia, and is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and Atlantic Region (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The Gulf migratory group king mackerel is divided into western and eastern zones. The Gulf's eastern zone for king mackerel is further divided into the Florida west coast northern and southern subzones which have separate commercial quotas. The commercial

quota for the hook-and-line component of the commercial sector in the Florida west coast southern subzone is 551,448 lb (250,133 kg) (50 CFR 622.384(b)(1)(i)(B)(1)).

From November 1 through March 31, the southern subzone encompasses an area of the exclusive economic zone (EEZ) south of a line extending due west from the boundary of Lee and Collier Counties, Florida, on the Florida west coast, and south of a line extending due east from the Monroe and Miami-Dade County, Florida, boundary on the Florida east coast, which includes the EEZ off Collier and Monroe Counties, Florida. From April 1 through October 31, the southern subzone is reduced to the EEZ off Collier County, and the EEZ off Monroe County becomes part of the Atlantic migratory group area.

Under 50 CFR 622.8(b) and 622.388(a)(1), NMFS is required to close any component of the king mackerel commercial sector when its quota has been reached, or is projected to be reached, by filing a notification at the Office of the Federal Register. NMFS has determined the commercial quota for the hook-and-line component of the commercial sector for Gulf migratory group king mackerel in the Florida west coast southern subzone will be reached by February 25, 2017. Accordingly, the hook-and-line component of the commercial sector for Gulf migratory group king mackerel in the Florida west coast southern subzone is closed effective 12:01 a.m., local time, February 25, 2017, through the end of the fishing year on June 30, 2017.

On February 10, 2017, NMFS closed the Florida west coast southern subzone to commercial harvest of king mackerel caught by run around gillnet gear, because the commercial quota for that sector had been reached (82 FR 10553, February 14, 2017). Therefore, during these closures, no person aboard a vessel for which a valid commercial permit for king mackerel has been issued may harvest or possess Gulf migratory group king mackerel in or from Federal waters of the closed subzone, as specified in 50 CFR 622.384(e). However, there is one exception. A person aboard a vessel that has a valid Federal charter vessel/headboat permit and also has a commercial king mackerel permit for coastal migratory pelagic fish may continue to retain king mackerel in or from the closed subzone under the 2-fish daily recreational bag limit, provided the vessel is operating as a charter vessel or headboat. Charter vessels or headboats that have a valid commercial king mackerel permit are considered to be operating as a charter

vessel or headboat when they carry a passenger who pays a fee or when more than three persons are aboard, including operator and crew.

Classification

The Regional Administrator, NMFS Southeast Region, has determined this temporary rule is necessary for the conservation and management of Gulf migratory group king mackerel and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.8(b) and 622.388(a)(1) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA), finds that the need to immediately implement this action constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such prior notice and opportunity for public comment on this temporary rule are unnecessary and contrary to the public interest. Such procedures are unnecessary because the regulations at 50 CFR 622.8(b) and 622.388(a)(1) have already been subject to notice and comment, and all that remains is to notify the public of the closure. Such procedures are contrary to the public interest, because there is a need to immediately implement this action to protect the king mackerel resource since the capacity of the fishing fleet allows for rapid harvest of the commercial quota. Prior notice and opportunity for public comment on this action would require time and would potentially result in a harvest well in excess of the established commercial quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in effectiveness of the action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 22, 2017.

Karen H. Abrams,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
