Discussion

The Coast Guard announced a port access route study of the Bering Strait in the **Federal Register** on November 8, 2010 (75 FR 68568). The purpose of the PARS was to solicit public comments on whether a vessel routing system was needed and if it could increase vessel safety in the area. At that time the Coast Guard did not propose a specific vessel routing system, but instead sought more general comments about whether a vessel routing system was needed or advisable in the study area. The Coast Guard received twenty five comments,

and after reviewing them, determined that a specific vessel route needed to be proposed so more specific comments and concerns could be gathered and evaluated before determining if a routing system would be beneficial. The Coast Guard further determined that the study area should include a larger geographic area than was initially studied before finalizing the study and publishing the results.

On December 5, 2014 the Coast Guard announced via the **Federal Register** (79 FR 72157) its intent to continue the PARS started in 2010 by expanding the study area to include most of the Bering Sea, proposing a two-way route as a vessel routing system and requesting additional public comments. The Coast Guard’s goal of the study remained the same in that the study was focused on gathering factual and relevant information to aid the Coast Guard in reducing the risk of marine casualties and increasing the efficiency of vessel traffic in the region. The Coast Guard received twenty nine comments in response to this request for comment and after reviewing them, developed the PARS report. The preliminary findings in this report include some changes to previous proposals on which the Coast Guard solicited comments. Additional waypoints have been added to the proposed route, and Areas to Be Avoided (ATBA’s) have been proposed as additional routing measures. Upon review of any public comments received in response to this notice of study availability, the Coast Guard may adjust the proposed route and ATBAs accordingly before submitting a final proposal to the International Maritime Organization for formal adoption.

This notice is issued under authority of 33 U.S.C 1223(c) and 5 U.S.C. 552(a).

Dated: January 17, 2017.

M. F. McAllister,

Rear Admiral, U.S. Coast Guard, Commander, Seventeenth Coast Guard District.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–6000–FA–06]

Announcement of Funding Awards for HUD’s Fiscal Year 2016 Community Compass Technical Assistance and Capacity Building Program

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice of funding awards.

SUMMARY: In accordance with the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the Notice of Funding Availability (NOFA) for the HUD Community Compass Technical Assistance and Capacity Building program for Fiscal Year 2016. This announcement contains the names of the awardees and amounts of the awards made available by HUD.

FOR FURTHER INFORMATION CONTACT: Kenneth W. Rogers, Team Lead, Technical Assistance Division, Office of Community Planning and Development, 451 Seventh Street SW., Room 7218, Washington, DC 20410-7000; telephone (202) 402-4396 (this is not a toll-free number). Persons with speech or hearing impairments may access this telephone number via TTY by calling the toll-free Federal Relay Service during working hours at 800-877-8339. For general information on this and other HUD programs visit the HUD Web site at <http://www.hud.gov>.

SUPPLEMENTARY INFORMATION: The Community Compass Technical Assistance and Capacity Building

program (Community Compass) represents HUD's integrated technical assistance and capacity building initiative. Community Compass is designed to help HUD's customers navigate complex housing and community development challenges by equipping them with the knowledge, skills, tools, capacity, and systems to implement HUD programs and policies successfully and be more effective stewards of HUD funding. The goal of Community Compass is to empower communities by providing effective technical assistance and capacity building so that successful program implementation is sustained over the long term.

Recognizing that HUD's customers often interact with a variety of HUD programs as they deliver housing or community development services, Community Compass brings together technical assistance investments from across HUD program offices, including but not limited to the Office of Community Planning and Development, the Office of Housing, the Office of Public and Indian Housing, and the Office of Fair Housing and Equal Opportunity. This cross-funding approach allows technical assistance to address the needs of grantees and

subgrantees across multiple HUD programs, often within the same engagement, as well as address cross-agency issues.

The competition was announced in the NOFA published on May 19, 2016, (FR-6000-N-06) and closed on July 19, 2016. The NOFA announced the availability of approximately \$58 million for HUD Community Compass Technical Assistance and Capacity Building awards. Applications were rated and selected for funding on the basis of selection criteria contained in the NOFA. For the Fiscal Year 2016 competition, \$56,497,435.00 was awarded to 22 technical assistance providers nationwide.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the awardees and the amounts of the awards in Appendix A to this document.

Dated: February 10, 2017.

Clifford Taffet,

General Deputy Assistant Secretary for Community Planning and Development.
