Centers for Disease Control and Prevention

Request for Nominations of Candidates To Serve on the Clinical Laboratory Improvement Advisory Committee (CLIAC)

The Centers for Disease Control and Prevention (CDC) is soliciting nominations for membership on CLIAC. CLIAC provides scientific and technical advice and guidance to the Secretary, Department of Health and Human Services (HHS); the Assistant Secretary for Health, HHS; the Director, Centers for Disease Control and Prevention (CDC); the Commissioner, Food and Drug Administration (FDA); and the Administrator, Centers for Medicare & Medicaid Services (CMS). The advice and guidance pertain to general issues related to improvement in clinical laboratory quality and laboratory medicine. In addition, the Committee provides advice and guidance on specific questions related to possible revision of the CLIA standards. Examples include providing guidance on studies designed to improve safety, effectiveness, efficiency, timeliness, equity, and patient-centeredness of laboratory services; revisions to the standards under which clinical laboratories are regulated; the impact of proposed revisions to the standards on medical and laboratory practice; and the modification of the standards and provision of non-regulatory guidelines to accommodate technological advances, such as new test methods, the electronic transmission of laboratory information, and mechanisms to improve the integration of public health and clinical laboratory practices.

CLIAC consists of 20 members including the Chair, represents a diverse membership across laboratory specialties, professional roles (laboratory management, technical specialists, physicians, nurses) and practice settings (academic, clinical, public health), and includes a consumer representative. In addition, the Committee includes three ex officio members (or designees), including the Director, CDC; the Administrator, CMS; and the Commissioner, FDA. A nonvoting representative from the Advanced Medical Technology Association (AdvaMed) serves as the industry liaison. The Designated Federal Official (DFO) or their designee and the Executive Secretary are present at all meetings to ensure meetings are within applicable statutory, regulatory and

HHS General Administration manual directives.

Request for Candidates: Nominations are being sought for individuals who have expertise and qualifications necessary to contribute to accomplishing CLIAC's objectives. Nominees will be selected by the HHS Secretary or designee from authorities knowledgeable across the fields of microbiology (including bacteriology, mycobacteriology, mycology, parasitology, and virology), immunology (including histocompatibility), chemistry, hematology, pathology (including histopathology and cytology), or genetic testing (including cytogenetics); representatives from the fields of medical technology, public health, and clinical practice; and consumer representatives. Members may be invited to serve for terms of up to four years.

The U.S. Department of Health and Human Services policy stipulates that Committee membership be balanced in terms of points of view represented, and the committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for CLIAC membership each year, and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of the term in July, or as soon as the HHS selection process is completed. Note that the need for different expertise and individuals to maintain the appropriate demographic balance varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Candidates should submit the following items to be considered for nomination. The deadline for receipt of materials for the 2018 term is May 1, 2017:

- Current *curriculum vitae*, including complete contact information (name,

affiliation, mailing address, telephone number, email address).

- Letter(s) of recommendation from person(s) not employed by the U.S. Department of Health and Human Services.

Request for Nominations of Candidates To Serve on the Mine Safety and Health Research Advisory Committee (MSHRAC), National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention (CDC), Department of Health and Human Services

The CDC is soliciting nominations for possible membership on the Mine Safety and Health Research Advisory Committee (MSHRAC), National Institute for Occupational Safety and Health (NIOSH).

The MSHRAC consists of 13 experts in fields related to mining safety and health. The members are selected by the Secretary of the U.S. Department of Health and Human Services (HHS). The committee advises the NIOSH Director on mining safety and health research and prevention programs. The committee also provides advice on standards of scientific excellence, current needs in the field of mining safety and health, and the applicability and dissemination of research findings. This advice may take the form of reports

or verbal communications to the NIOSH Director during MSHRAC meetings.

Nominations are being sought for individuals who have expertise and qualifications necessary to contribute to the accomplishment of the committee's mission.

Nominees will be selected based on expertise in the field of mining safety and health, such as mining engineering, industrial hygiene, occupational safety and health engineering, chemistry, safety and health education, ergonomics, epidemiology, statistics, and psychology. Members may be invited to serve for terms of up to four years.

The U.S. Department of Health and Human Services policy stipulates that Committee membership be balanced in terms of points of view represented, and the committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government.
