### Animal and Plant Health Inspection Service

*Title:* National Animal Health Monitoring System; Antimicrobial Use Studies.

*OMB Control Number:* 0579-NEW.

*Summary of Collection:* Collection and dissemination of animal health data and information is mandated by 7 U.S.C. 391, the Animal Industry Act of 1884, which established the precursor of the APHIS, Veterinary Services, the Bureau of Animal Industry. Legal requirements for examining and reporting on animal disease control methods were further mandated by 7 U.S.C. 8308 of the Animal Health Protection Act, "Detection, Control, and Eradication of Diseases and Pests," May 13, 2002. APHIS will initiate the Antimicrobial Use Study which will consist of two surveys; a swine and feedlot survey. The information collected through the Antimicrobial Use Study will be analyzed and organized into one or more descriptive reports.

*Need and Use of the Information:* APHIS will use the data collected from the Antimicrobial Use Study to: (1) Describe antimicrobial usage to control and treat disease and promote growth on a regional and national basis both before and after implementation of the Food and Drug Administration's Veterinary Feed Directive; (2) Provide this information to industry as well as legislators to help form policy based on objective estimates; and (3) Use findings from the study as a basis for more in-depth evaluation of usage and resistance in a subsequent longitudinal study on farms. Without this information on antimicrobial use, the United States would have no ability to understand and develop information on trends in antimicrobial use nor would it be able to provide objective information to evaluate the results of the Food and Drug Administration's Veterinary Feed Directive.
