SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Survey of Occupational Injuries and Illnesses (SOII) information collection. The SOII is the primary indicator of the Nation's progress in providing every working man and woman safe and healthful working conditions. The survey measures the overall rate of work injuries and illnesses by industry. Survey data are also used to evaluate the effectiveness of Federal and State programs and to prioritize scarce resources. Respondents include employers who maintain related records in accordance with the Occupational Safety and Health Act (OSH Act) and employers who are normally exempt from such recordkeeping. Each year a sample of exempt employers is required to keep records and participate in the survey. This information collection is classified as a revision, because of the addition of a one-time pilot test entitled the Household Survey of Occupational Injuries and Illnesses (HSOII) to this information collection. The BLS will use HSOII Pilot Test data collected to (1) test the feasibility of collecting occupational injuries and illness from workers directly; (2) To estimate the burden of occupational injuries and illnesses in the U.S.; and (3) to compare against occupational injury and illness estimates from the SOII at the national level and for broad industries and occupations. OSH Act section 24(a) authorizes this information collection. See 29 U.S.C. 673.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0045. The current approval is scheduled to expire on December 31, 2018; however, the DOL notes that existing information

collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 19, 2016 (81 FR 31666).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0045. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the American Apprenticeship Initiative (AAI) Grants information collection. The ETA requires grantees to submit Quarterly Progress Reports on enrolled apprentices in Registered Apprenticeship programs and/or pre-apprenticeship program participants, along with a narrative summary of the partnership progress and implementation measures identified by the grantee in the project work plan. These reports help ETA gauge the effects of the AAI grants, identify grantees and programs that could serve as useful models, and target technical assistance appropriately.
