SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. This meeting is also available telephonically and by WebEx. You must use a touch-tone phone to participate in this meeting. Any interested person may call the USA toll-free conference number 1–844–467–6272, and then the numeric passcode: 102421 followed by the # sign. To join via WebEx, the link is https://nasa.webex.com/, the meeting number is 990 061 454, and the password is “Technology17!” (case sensitive).

The agenda for the meeting includes the following topics:

—Space Technology Mission Directorate (STMD) Update
—Update on STMD Strategic Implementation Plan
—NASA’s Barriers to Innovation and Chief Technologist Update
—Space Technology Research Institutes Overview
—Small Spacecraft Technology Study Final Report
—Entry, Descent, and Landing Update

Attendees will be requested to sign a register and to comply with NASA Headquarters security requirements, including the presentation of a valid picture ID to Security before access to NASA Headquarters. Due to the Real ID Act, Public Law 109–13, any attendees with driver’s licenses issued from non-compliant states/territories must present a second form of ID, [Federal employee badge; passport; active military identification card; enhanced driver’s license; U.S. Coast Guard Merchant Mariner card; Native American tribal document; school identification accompanied by an item from LIST C (documents that establish employment authorization) from the “List of the Acceptable Documents” on Form I–9].

Non-compliant states/territories are: Maine, Minnesota, Missouri, Montana, and Washington. Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 days prior to the meeting: Full name; gender; date/place of birth; citizenship; passport information (number, country, telephone); visa information (number, type, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee. To expedite admittance, attendees that are U.S. citizens and Permanent Residents (green card holders) are requested to provide full name and citizenship status 3 working days in advance. Information should be sent to Ms. Anyah Dembling via email at anyah.dembling@nasa.gov. It is imperative that the meeting be held on these dates to the scheduling priorities of the key participants.

Patricia D. Rausch,
Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILING CODE 7510–13–P

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Proposed Collection; Comment Request

AGENCY: National Endowment for the Humanities.

ACTION: Notice and request for comments.

SUMMARY: The National Endowment for the Humanities (NEH) is soliciting public comments on the proposed information collection described below. The proposed information collection will be sent to the Office of Management and Budget (OMB) for review, as required by the provisions of the Paperwork Reduction Act of 1995.

DATES: Comments on this information collection must be submitted on or before May 8, 2017.

ADDITIONS: Submit electronic comments to Mr. Joel Schwartz, Chief Guidelines Officer at jschwartz@neh.gov.

SUPPLEMENTARY INFORMATION: The NEH will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 35). This notice is soliciting comments from members of the public and affected agencies. NEH is particularly interested in comments which help the agency to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of electronic submissions of responses.

This Notice also lists the following information:

Type of Review: New Collection.

Title of Proposal: General Clearance Authority to Develop Evaluation Instruments for the National Endowment for the Humanities.

OMB Number: N/A.

Affected Public: NEH grantees.

Total Respondents: 1160.

Frequency of Collection: On occasion.

Total Responses: 1160.

Average Time per Response: 30 minutes.

Estimated Total Burden Hours: 580 hours.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the information collection request. These comments will also become a matter of public record.

Dated: March 1, 2017.

Margaret F. Plympton,
Deputy Chairman.

BILING CODE 7536–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–271; NRC–2015–0157]

Entergy Nuclear Operations, Inc.; Vermont Yankee Nuclear Power Station

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft environmental assessment and finding of no significant impact; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft environmental assessment (EA) and finding of no significant impact (FONSI) regarding the issuance of two exemptions in response to a January 6, 2015 request from Entergy Nuclear Operations, Inc. (Entergy or the licensee), representing itself and the other owners of the Vermont Yankee Nuclear Power Station (VY). The exemptions allow the licensee to use funds from the VY decommissioning funds trust (the Trust) for irradiated fuel management activities without prior notice to the NRC.

DATES: Submit comments by April 7, 2017. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDITIONS: You may submit comments by any of the following methods:
A. Obtaining Information

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2015–0157 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2015–0157. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• Mail comments to: Cindy Bladey, Office of Administration, Mail Stop: OWPN–12–H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–6634; email: Jack.Parrott@nrc.gov.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the SUPPLEMENTARY INFORMATION section of this document.

II. Introduction

On June 23, 2015 (80 FR 35992), the NRC issued exemptions from §§ 50.82(a)(8)(i)(A) and 50.75(h)(2) of title 10 of the Code of Federal Regulations (10 CFR) to Entergy, for VY’s Facility Operating License No. DPR–28. The VY facility is located in Windham County, Vermont. The licensee requested the exemptions by letter dated January 6, 2015 (ADAMS Accession No. ML15013A426), and the NRC issued exemptions from §§ 50.82(a)(8)(i)(A) and 50.75(h)(2). Specifically, the exemptions allow Entergy to use funds from the Trust for irradiated fuel management activities, not associated with radiological decontamination, and exempt Entergy from meeting the requirement for prior notification to the NRC for these disbursements.

B. Submitting Comments

Please include Docket ID NRC–2015–0157 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at http://www.regulations.gov as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

III. Draft Environmental Assessment

Description of the Action

The exemption request by Entergy on January 6, 2015, and granted by the NRC on June 23, 2015, exempts Entergy from the requirements set forth in §§ 50.82(a)(8)(i)(A) and 10 CFR 50.75(h)(2). Specifically, the exemptions allow Entergy to use funds from the Trust for irradiated fuel management activities, not associated with radiological decontamination, and exempt Entergy from meeting the requirement for prior notification to the NRC for these disbursements.

Need for the Action

By letter dated January 12, 2015 (ADAMS Accession No. ML15013A426), Entergy informed the NRC that it had permanently ceased power operations at VY and that the VY reactor vessel had been permanently defueled. Entergy stated that it needed access to the funds in the Trust, in excess of those needed for radiological decontamination, to support irradiated fuel management activities not associated with radiological decontamination. As required by § 50.82(a)(8)(i)(A), decommissioning trust funds may be used by the licensee if the withdrawals are for legitimate decommissioning activity expenses, consistent with the definition of decommissioning in § 50.2. This definition addresses radiological decontamination and does not include activities associated with irradiated fuel management. Similarly, the requirements of § 50.75(h)(2) restrict the use of decommissioning trust fund disbursements (other than for ordinary and incidental expenses) to decommissioning expenses until final decommissioning has been completed. Therefore, Entergy needed exemptions from §§ 50.82(a)(8)(i)(A) and 50.75(h)(2) to allow the use of funds from the Trust for irradiated fuel management activities without prior notice of disbursement.

Entergy stated that the Trust contains funds for decommissioning that are commingled with funds intended for irradiated fuel management activities not associated with radiological decontamination. The VY Annual Decommissioning Financial Status
If the remaining balance, plus expected rate of return, plus any other financial surety mechanism does not cover the estimated costs to complete the decommissioning, the § 50.82(a)(8)(vi) specifies that additional financial assurance must be provided. These annual reports provide a means for the NRC to monitor the adequacy of available funding.

Additionally, in accordance with the VY Renewed Facility Operating License (ADAMS Accession No. ML15117A551), Condition 3.J.a(iii), the decommissioning trust agreement must provide that no disbursements or payments from the Trust, other than for ordinary administrative expenses, shall be made by the Trustee until the Trustee has first given thirty days prior written notice to the NRC. Article IV, Section 4.05 of the Master Decommissioning Trust Agreement (ADAMS Accession No. ML15111A086), by and between Entergy Nuclear Vermont Yankee, LLC, and The Bank of New York Mellon as Trustee, provides that no disbursements or payments shall be made by the Trustee, other than administrative expenses, in accordance with Section 4.02 of the Master Trust Agreement, until the Trustee has first given the NRC 30 days prior written notice of payment; provided, however, that no disbursement or payment from the Trust shall be made if the Trustee receives prior written notice of objection from the Director of the Office of Nuclear Reactor Regulation.

The second exemption, which was also granted, exempted Entergy from § 50.75(h)(2). This exemption did not apply to VY at the time of the request because license condition 3.J.a(iii) was still in effect. Section 50.75(h)(2) would have applied if Entergy’s the September 2014 license amendment request to remove the license condition had been approved (ADAMS Accession No. ML14254A405). Entergy withdrew that license amendment request on September 22, 2015 (ADAMS Accession Nos. ML15267A074 and ML15265A583, respectively); therefore the second exemption request has not been implemented. License condition 3.J.a(iii) is still in effect and VY remains subject to the disbursement notification condition in the license.

The environmental impacts of decommissioning have been generally evaluated by the NRC and documented in NUREG–0586, Supplement 1 (Decommissioning Generic Environmental Impact Statement [GEIS]), Entergy’s Post-Shutdown Decommissioning Activity Report (ADAMS Accession No. ML14357A110) stated that impacts from planned decommissioning activities at VY are less than and bounded by the impacts considered in the Decommissioning GEIS and NUREG–1496, Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Nuclear Facilities. The NRC agreed with Entergy’s conclusion that VY decommissioning activities were bounded by previous analyses (ADAMS Accession No. ML15343A210).

The exemptions do not authorize Entergy to perform new land-disturbing activities that could affect land use, soils and geology, water resources, ecological resources, or historic and cultural resources. The exemptions do not authorize Entergy to conduct additional regulatory activities, outside those already licensed by the NRC, therefore there are no incremental effects to air quality, traffic and transportation, socioeconomics, environmental justice, or accidents. The exemptions will not increase the probability or consequences of accidents. As a result of the exemptions, there are no changes in the types or amounts of effluents that are, or may be, released offsite. Entergy must continue to comply with all appropriate NRC regulations related to occupational and public radiation exposure and thus the exemptions will not result in an increase to occupational or public doses. Accordingly, the NRC concludes that there are no potential environmental impacts as a result of the granted exemptions.

Environmental Impacts of the Alternatives to the Action

As an alternative to the action, the NRC staff could have denied Entergy’s exemption request. Denial of the exemption request would have resulted in Entergy operating the facility as licensed, thus the environmental impacts would be the same as those already considered by the previous environmental review in NUREG–1437, Supplement 30 regarding renewal of VY’s operating license.

Agencies or Persons Consulted

On December 15, 2016, the NRC notified the State of Vermont of the draft EA and FONSI. The NRC staff has determined that the exemptions would have no impact on historic or cultural resources or ecological resources and therefore no consultations are necessary under Section 7 of the Endangered Species Act and Section 106 of the National Historic Preservation Act, respectively.

On November 4, 2015, the Petitioners filed a petition with the Commission.
that challenged the NRC staff’s approval of Entergy’s exemption requests. The Petitioners raised concerns about the use of Trust fund for costs associated with irradiated fuel management, citing that a potential shortfall in the Fund would result in radiological and environmental consequences as well as economic risk to the Vermont taxpayers. As discussed earlier, the NRC has determined that there is reasonable assurance that adequate funds are available in the Trust to complete all activities associated with decommissioning and irradiated fuel management activities. Further, the NRC has concluded in this EA that there are no environmental impacts as a result of the exemptions.

IV. Finding of No Significant Impact

Entergy proposed exemptions from §§ 50.82(a)(8)(i)(A) and 50.75(h)(2) to allow the licensee to use funds from the Trust for irradiated fuel management activities, without prior written notification to the NRC. The NRC granted the exemptions on June 23, 2015. Consistent with § 51.21, the NRC conducted the environmental assessment for the exemptions included in Section II of this document and incorporated by reference in this finding. On the basis of this environmental assessment, the NRC concludes that the exemptions did not, and will not, have significant effects on the quality of the human environment. Accordingly, the NRC has decided not to prepare an environmental impact statement for the action.

Dated at Rockville, Maryland, this 1st day of March, 2017.

For the Nuclear Regulatory Commission.

Diane L. Render,
Project Manager, Plant Licensing Branch I, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

Attachment—Order Approving Direct Transfer of License and Approving Conforming Amendment

In the Matter of Entergy Nuclear FitzPatrick, LLC, Entergy Nuclear Operations, Inc., and Exelon Generation Company, LLC; James A. FitzPatrick Nuclear Power Plant
ORDER APPROVING DIRECT TRANSFER OF LICENSE AND APPROVING CONFORMING AMENDMENT

I. Entergy Nuclear FitzPatrick, LLC (ENF) and Entergy Nuclear Operations, Inc. (ENO) (collectively, Entergy) are the owner and operator, respectively, of the James A. FitzPatrick Nuclear Power Plant (FitzPatrick) and are the holders of Renewed Facility Operating License No. DPR–59 and the general license for the FitzPatrick Independent Spent Fuel Storage Installation (ISFSI). FitzPatrick is a General Electric boiling-water reactor located in Oswego County, New York.

II. By application dated August 18, 2016, as supplemented by letter dated November 29, 2016, Entergy and Exelon Generation Company, LLC (Exelon) jointly requested, pursuant to Title 10 of the Code of Federal Regulations (10 CFR) section 50.80 (10 CFR 50.80), that the U.S. Nuclear Regulatory Commission (NRC) consent to the direct transfer of the FitzPatrick renewed facility operating license and the FitzPatrick ISFSI general license from Entergy to Exelon. Future references to FitzPatrick include the general license for the FitzPatrick ISFSI.

In response to the request by Entergy and Exelon for consent to the direct transfer of the FitzPatrick renewed facility operating license and the FitzPatrick ISFSI general license, the NRC published a notice entitled, “James A. FitzPatrick Nuclear Power Plant; Consideration of Approval of Transfer of License and Conforming Amendment,”
