BILLING CODE 6750-01-P

GULF COAST ECOSYSTEM RESTORATION COUNCIL

Notice of Proposed Subaward Under a Council-Selected Restoration Component Award

AGENCY: Gulf Coast Ecosystem Restoration Council.

ACTION: Notice.

SUMMARY: The Gulf Coast Ecosystem Restoration Council (Council) publishes notice of a proposed subaward from the National Oceanic and Atmospheric Administration National Centers for Coastal Ocean Science (NOAA) to the Gulf of Mexico Alliance (GOMA), a nonprofit organization, for the purpose of supporting the Council Monitoring and Assessment Program (CMAP). The Council and NOAA have entered an interagency agreement for NOAA to carry out CMAP, as approved in the Council's Initial Funded Priorities List.

FOR FURTHER INFORMATION CONTACT: Please send questions by email to raams_pgmsupport@restorethegulf.gov.

SUPPLEMENTARY INFORMATION: Section 1321(t)(2)(E)(ii)(III) of the RESTORE Act (33 U.S.C. 1321(t) and *note*) and Treasury's implementing regulation at 31 CFR 34.401(b) require that, for purposes of awards made under the Council-Selected Restoration Component, a State or Federal award recipient may make a grant or subaward to or enter into a cooperative agreement with a nongovernmental entity that equals or exceeds 10 percent of the total amount of the award provided to the State or Federal award recipient only if certain notice requirements are met. Specifically, at least 30 days before the State or Federal award recipient enters into such an agreement, the Council must publish in the **Federal Register** and deliver to specified Congressional Committees the name of the recipient and subrecipient; a brief description of the activity, including its purpose; and the amount of the award. This notice accomplishes the **Federal Register** publication requirement.

Description of Proposed Action

As specified in the Initial Funded Priorities List, which is available on the Council's Web site at <https://www.restorethegulf.gov/council-selected-restoration-component/funded-priorities-list>, RESTORE Act funds will support the Council Monitoring and Assessment Program (CMAP). Administered jointly by NOAA and the Department of the Interior's United States Geological Survey (USGS), CMAP will build the foundational components for Gulf region-wide monitoring in order to measure impacts of investments in restoration. Through collaboration with the Gulf States, federal and local partners, academia, non-governmental/non-profit organizations, and industry, the program will use a Monitoring Community of Practice coordinated by the Gulf of Mexico Alliance to leverage existing resources, capacities, and expertise and build on existing monitoring programs. These existing programs will be coordinated into a network, to provide efficiency in monitoring and collaborative cross-program review of performance with other Gulf ecosystem recovery efforts.

The program will: (1) Create an inventory of the existing monitoring programs, data, protocols and standards; (2) determine the minimum monitoring elements needed to evaluate the performance of restoration projects; (3) evaluate monitoring program suitability; (4) combine data from the suitable existing programs into searchable databases for Council use; (5) examine the inventory to determine what data are missing (*i.e.* identify information gaps) that would be required for the RESTORE Council; (6) document existing baseline assessments of habitat and water quality conditions; and (7) provide recommendations to the Council to supplement and refine the existing monitoring programs to fill-in the information gaps where possible.

Will D. Spoon,

Program Analyst, Gulf Coast Ecosystem Restoration Council.

BILLING CODE 6560-58-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2017-0008]

Proposed Data Collection Submitted for Public Comment and Recommendations: Survey of Engineered Nanomaterial Occupational Safety and Health Practices; Extension of Public Comment Period

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Extension of public comment period.

SUMMARY: On February 10, 2017, the Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS) published a notice in the **Federal Register** requesting public comment on the proposed information collection entitled "Survey of Engineered Nanomaterial Occupational Safety and Health Practices". Written and electronic comments were to be received on or before April 11, 2017. Because of an improper docket opening, CDC is extending the comment period to allow the public a full 60 days to provide comment on this docket. In consideration of this public access issue, HHS/CDC is extending the comment period to May 12, 2017.

DATES: Written comments must be received on or before May 11, 2017.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2017-0008 by any of the following methods:

- *Federal eRulemaking Portal:* Regulations.gov. Follow the instructions for submitting comments.

- *Mail:* Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to Regulations.gov, including any personal information provided. For access to the docket to read background documents or comments received, go to Regulations.gov.

Please note: All public comment should be submitted through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of
