

the transportation planning process. The purpose of the Alternatives Analysis Program was to assist in financing the evaluation of all reasonable modal and multimodal alternatives and general alignment options for identified transportation needs in a particular, a broadly defined travel corridor. The transportation planning process of Alternatives Analysis included an assessment of a wide range of public transportation or multimodal alternatives, which addressed transportation problems within a corridor or subarea; provided ample information that enabled the Secretary to make the findings of project justification and local financial commitment; supported the selection of a locally preferred alternative; and enabled the local Metropolitan Planning Organization to adopt the locally preferred alternative as part of the long-range transportation plan. The Alternative Analysis Program was repealed by Congress under the Moving Ahead for Progress in the 21st Century Act (MAP-21). However, funds previously authorized for programs repealed by MAP-21 remain available for their originally authorized purposes until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated. To meet program oversight responsibilities, FTA must continue to collect information until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated.

Annual Estimated Total Burden Hours: 250 hours.

SUPPLEMENTARY INFORMATION: Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) The necessity and utility of the information collection for the proper performance of the functions of the FTA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

Title: Title VI as it Applies to FTA Grant Programs (OMB Number: 2132-0540).

Background: Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) states:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

To achieve this purpose, each Federal department and agency which provides financial assistance for any program or

activity is authorized and directed by the Department of Justice (DOJ) to effectuate provisions of Title VI for each program or activity by issuing generally applicable regulations or requirements. The Department of Transportation (DOT) has issued its regulation implementing this DOJ mandate.

In this regard, the responsibility of the FTA is to ensure that Federally-supported transit services and benefits are distributed by applicants, recipients, and sub-recipients of FTA assistance in a manner consistent with Title VI. The employment practices of a grant applicant, recipient, or sub-recipient are also covered under Title VI if the primary purpose of the FTA-supported program is to provide employment or if those employment practices would result in discrimination against beneficiaries of FTA-assisted services and benefits.

FTA policies and requirements are designed to clarify and strengthen Title VI (service equity) procedures for FTA grant recipients by requiring submission of written plans and approval of such plans by the agency. All project sponsors receiving financial assistance pursuant to an FTA-funded project shall not discriminate in the provision of services because of race, color, or national origin. Experience has demonstrated that a program requirement at the application stage is necessary to assure that benefits and services are equitably distributed by grant recipients. The requirements prescribed by the Office of Civil Rights are designed to accomplish this objective and diminish possible vestiges of discrimination among FTA grant recipients. FTA's assessment of the requirements indicated that the formulation and implementation of the Title VI Program should occur with a decrease in costs to such applicants and recipients.

Respondents: Transit agencies, States and Metropolitan Planning Organizations.

Estimated Annual Burden on Respondents: 45 hours for each of the 316 Equal Employment Opportunity (EEO) submissions.

Estimated Total Annual Burden: 5,332 hours.

Frequency: Annual.

Title: Over the Road Bus (OTRB) Accessibility Program (OMB Number: 2132-0570).

Background: The Over-the-Road Bus (OTRB) Accessibility Program was authorized under section 3038 of the Transportation Equity Act for the 21st Century (TEA-21), Public Law 105-85, as amended by the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Public Law 109-059, August 10, 2005. OTRBs funding was used in intercity fixed route service as well as other services, such as commuter, charter and tour bus services. These services were an important element of the U.S. transportation system. TEA-21 authorized FTA's OTRB Accessibility Program to assist OTRB operators in complying with the Department's OTRB Accessibility regulation, "Transportation for Individuals with Disabilities" (49 CFR part 37, subpart H). The legislative intent of this grant program was to increase the number of wheelchair accessible OTRBs available to persons with disabilities throughout the country. The Over the Road Bus
