

Investment and Reform Act for the 21st Century (AIR-21) requires the FAA to provide an opportunity for public notice and comment prior to the “waiver” or “modification” of a sponsor’s Federal obligation to use certain airport land for non-aeronautical purposes. The following is a brief overview of the request:

The City of Tallahassee is proposing to release from aeronautical use provisions approximately 119.6 acres at Tallahassee International Airport. The Proposed Project is part of the City of Tallahassee strategy to diversify the fuel supply, reduce the City’s reliance on fossil fuels and reduce carbon emissions generated with electric power generation. The purpose of the Proposed Action is to generate clean energy, increase energy independence, and decrease the reliance on electricity generated by fossil fuel power plants. The Proposed Project is necessary to increase economic contribution from non-aviation uses on Airport property, support economic and sustainable development at the Airport, contribute to the Airport’s economic viability and reduce the airport’s carbon footprint.

DATES: Comments are due on or before April 13, 2017.

ADDRESSES: Documents are available for review at Tallahassee International Airport, and the FAA Airports District Office, 5950 Hazeltine National Drive, Suite 400, Orlando, FL 32822. SUPPLEMENTARY INFORMATION:

The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days' notice to the public to allow comment on information collection activities before seeking OMB approval of the activities. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested parties to comment on the following summary of proposed information collection activities regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques and other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, FRA reasons that comments received will advance three objectives: (1) Reduce reporting burdens; (2) ensure that it organizes information collection requirements in a "user-friendly" format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of currently approved information collection activities that FRA will submit for OMB renewed or revised clearance as the PRA requires:
