[Docket 72-1050; NRC-2016-0231]

Waste Control Specialists LLC's Consolidated Interim Spent Fuel Storage Facility

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Environmental impact statement; extension of scoping comment period; additional public scoping comment meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) requested public comments on the scope of NRC's environmental impact statement (EIS) for the Waste Control Specialists LLC (WCS) proposed consolidated interim storage facility (CISF) for spent nuclear fuel, to be located on WCS' site in Andrews County, Texas. The public scoping period closed on March 13, 2017. The NRC has decided to re-open the public scoping period to allow more time for members of the public to develop and submit their comments. The NRC also has scheduled an additional meeting where members of the public may present comments to the NRC.

DATES: Comments should be filed no later than April 28, 2017. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before that date.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0231. Address questions about NRC dockets to Ms. Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. B. Submitting Comments

Please include Docket ID NRC-2016-0231 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for

submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

On November 14, 2016, the NRC published in the **Federal Register** (81 FR 79531), a notice of its intent to prepare an EIS on WCS' proposed CISF for spent nuclear fuel and requested public comments on the scope of the EIS. The NRC published a second notice on January 30, 2017 (82 FR 8771), that set March 13, 2017, as the closing date for the scoping period. The NRC has received scoping comments that requested an extension of time. While the NRC is still in the process of reviewing comments received, it appears that most of these extension requests seek a 90-day extension to the scoping period. After considering these requests, the NRC has decided to re-open the scoping period to allow more time for members of the public to develop and submit their comments. Comments should be submitted by April 28, 2017, to ensure consideration.

The NRC also will hold an additional public scoping meeting at the NRC headquarters in Rockville, Maryland, on Thursday, April 6, 2017. Persons interested in attending this meeting should check the NRC's Public Meeting Schedule Web page at <https://www.nrc.gov/pmns/mtg> for the time and agenda for the meeting. The NRC is planning to transmit the public meeting via webcast and to provide a telephone bridge line for members of the public who cannot attend the meeting in person.

Dated at Rockville, Maryland, this 9th day of March 2017.

For the U.S. Nuclear Regulatory Commission.

Brian W. Smith,

Deputy Director, Division of Fuel Cycle Safety, Safeguards, and Environmental Review, Office of Nuclear Material Safety and Safeguards.
