SUPPLEMENTARY INFORMATION:

I. Background

On January 13, 2017, the EPA (“we”) issued a final rule amending 40 CFR part 68, the chemical accident prevention provisions under section 112(r)(7) of the Clean Air Act (CAA) ((42 U.S.C. 7412(r)). The amendments addressed various aspects of risk management programs, including prevention programs at stationary sources, emergency response preparedness requirements, information availability, and various other changes to streamline, clarify, and otherwise technically correct the underlying rules. Collectively, this rulemaking is known as the “Risk Management Program Amendments.” For further information on the Risk Management Program Amendments, see 82 FR 4594 (January 13, 2017).

On January 26, 2017, the EPA published a final rule extending the effective date of the Risk Management Program Amendments from March 14, 2017, to March 21, 2017, see 82 FR 8499. This revision to the effective date of the Risk Management Program Amendments was part of an EPA final rule implementing a memorandum dated January 20, 2017, from the Assistant to the President and Chief of Staff, entitled “Regulatory Freeze Pending Review.” This memorandum directed the heads of agencies to extend until 60 days after the date of its issuance the effective date of rules that were published prior to January 20, 2017 but which had not yet become effective.

In a letter dated February 28, 2017, a group known as the “RMP Coalition,”¹ submitted a petition for reconsideration of the Risk Management Program Amendments (“RMP Coalition Petition”) as provided for in CAA section 307(d)(7)(B) (42 U.S.C.

¹ The RMP Coalition is comprised of the American Chemistry Council, the American Forest & Paper Association, the American Fuel & Petrochemical Manufacturers, the American Petroleum Institute, the Chamber of Commerce of the United States of America, the National Association of Manufacturers, and the Utility Air Regulatory Group.

7607(d)(7)(B)).² Under that provision, the Administrator is to commence a reconsideration proceeding if in the Administrator's judgment the petitioner raises an objection to a rule that was impracticable to raise during the comment period or if the grounds for the objection arose after the comment period but within the period for judicial review. In either case, the Administrator must also conclude that the objection is of central relevance to the outcome of the rule. The Administrator may stay the effective date of the rule for up to three months during such reconsideration.

In a letter dated March 13, 2017, the Administrator announced the convening of a proceeding for reconsideration of the Risk Management Program Amendments (a copy of this letter is included in the docket for this rule, Docket ID No. EPA-HQ-OEM-2015-0725). As explained in that letter, having considered the objections raised in the RMP Coalition Petition, the Administrator determined that the criteria for reconsideration have been met for at least one of the objections. We will prepare a notice of proposed rulemaking in the near future that will provide the RMP Coalition and the public an opportunity to comment on the issues raised in the petition that meet the standard of CAA section 307(d)(7)(B) as well as any other matter we believe will benefit from additional comment.

II. Issuance of a Stay and Delay of Effective Date

The EPA hereby issues a three-month (90-day) administrative stay of the effective date of the Risk Management Program Amendments. The effective date of the rule amending 40 CFR part 68 published at 82 FR 4594 (January 13, 2017), as amended by 82 FR 8499 (January 26, 2017), is delayed to June 19, 2017.
