

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-80239; File No. SR-ISEGemini-2017-14]

Self-Regulatory Organizations; ISE Gemini, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change, as Modified by Amendment No. 1, To Amend Supplementary Material .03 to Rule 713

March 14, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 9, 2017, ISE Gemini, LLC (“ISE Gemini” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. On March 13, 2017, the Exchange filed Amendment No. 1 to the proposed rule change.³ The Commission is publishing this notice to solicit comments on the proposed rule change, as modified by Amendment No. 1, from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Supplementary Material .03 to Rule 713 to change the allocation entitlement for Preferred PMMs.

The text of the proposed rule change is available on the Exchange’s Web site at www.ise.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Supplementary Material .03 to Rule 713 allows an Electronic Access Member (“EAM”) to designate a “Preferred Market Maker” on orders it enters into the System (“Preferred Orders”). A Preferred Market Maker may be the Primary Market Maker (“PMM”) appointed to the options class or any Competitive Market Maker (“CMM”) appointed to the options class.⁴ The purpose of the proposed rule change is to amend Supplementary Material .03 to Rule 713 to change the allocation entitlement for PMMs that receive Preferred Orders (*i.e.*, “Preferred PMMs”), consistent with allocation entitlements for PMM equivalents on another options exchange.

Currently, a Preferred Market Maker that is quoting at the national best bid of offer (“NBBO”) at the time the Preferred Order is received,⁵ is entitled to participation rights equal to the greater of: (i) The proportion of the total size at the best price represented by the size of its quote, or (ii) sixty percent (60%) of the contracts to be allocated if there is only one (1) other Professional Order or market maker quotation at the best price and forty percent (40%) if there are two (2) or more other Professional Orders and/or market maker quotes at the best price.⁶ This allocation entitlement is in lieu of the regular allocation provided in Supplementary Material .01 to Rule 713, and applies regardless of whether the Preferred Market Maker is a PMM or CMM. In some instances where the Preferred Market Maker is the PMM appointed to the options class this results in a preferred allocation that is worse than the market maker’s regular allocation entitlement. Specifically, Supplementary Material .01(c) to Rule 713 provides a small order entitlement whereby orders of five contracts or fewer are executed first by the PMM. A PMM that normally receives an allocation entitlement for orders of five contracts or fewer,⁷ would not receive this allocation entitlement if it were

designated as the Preferred Market Maker.

The Exchange now proposes to amend the participation rights of Preferred PMMs such that the PMM appointed in an option class will receive participation rights that are consistent with the higher allocation entitlement given to PMM equivalents on the MIAAX Options Exchange (“MIAAX”). In particular, the Exchange proposes to amend Supplementary Material .03(c) to Rule 713 to provide that, the Preferred Market Maker has participation rights equal to the greater of: (i) The proportion of the total size at the best price represented by the size of its quote, (ii) sixty percent (60%) of the contracts to be allocated if there is only one (1) other Professional Order or market maker quotation at the best price and forty percent (40%) if there are two (2) or more other Professional Orders and/or market maker quotes at the best price, or (iii) *the full size of a Preferred Order for five (5) contracts or fewer if the Primary Market Maker appointed to the options class is designated as the Preferred Market Maker—i.e.*, the small order allocation entitlement contained in Supplementary Material .01(c) to Rule 713. Thus, the PMM appointed to an options class would receive an allocation entitlement for orders of five contracts or fewer, regardless of whether that order is submitted as a Preferred Order. The Exchange believes that this is appropriate since the PMMs obligations to the market are the same regardless of whether an order happens to be submitted with a preference instruction. PMM equivalents on MIAAX currently receive this participation right when preferred, in addition to the regular 60% or 40% preferred allocation currently provided in the rule.⁸ Preferred CMMs will continue to receive the same allocation entitlement that they receive today.

Pursuant to Supplementary Material .01(c) to Rule 713 the Exchange evaluates on a quarterly basis what percentage of the volume executed on the Exchange is comprised of orders for five (5) contracts or fewer executed by PMMs. The Exchange represents that this review will extend to the small order entitlement for Preferred PMMs. Thus, consistent with Supplementary Material .01(c) to Rule 713, the Exchange will reduce the size of the orders included in the small order entitlement if such percentage is over forty percent (40%).

⁴ See Supplementary Material .03(a) to Rule 713.

⁵ If the Preferred Market Maker is not quoting at a price equal to the NBBO at the time the Preferred Order is received, the Exchange’s regular allocation procedure applies to the execution of the Preferred Order. See Supplementary Material .03(b) to Rule 713.

⁶ See Supplementary Material .03(c) to Rule 713.

⁷ See Supplementary Material .01(c) to Rule 713.

⁸ See MIAAX Rule 514(g), (i).

³ In Amendment No. 1, the Exchange represented that the proposed allocation entitlement for Preferred PMMs will be implemented on the INET trading system on or subsequent to the effective date of this proposed rule change.

Implementation

The proposed rule change will be implemented on the Exchange's new INET trading system, which launched on February 27, 2017,⁹ provided that the Exchange will provide notice of this change in a circular to be distributed to members prior to implementing the new allocation entitlement on INET. The INET migration is taking place on a symbol by symbol basis as specified by the Exchange in a notice to Members. The Exchange is proposing to implement this rule change on the INET platform as the symbols migrate to that platform. As such, PMMs will begin receiving the small order entitlement in symbols as they migrate to the INET platform. For symbols which migrated to INET prior to the approval of this rule change, the small order entitlement will be applied to such symbols starting on the implementation date noted in the circular distributed to members. The proposed allocation entitlement for Preferred PMMs will be implemented on the INET trading system on or subsequent to the effective date of this proposed rule change.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.¹⁰ In particular, the proposal is consistent with Section 6(b)(5) of the Act,¹¹ because it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is consistent with the protection of investors and the public interest as it will allow EAMs to send Preferred Orders to the PMM appointed in an options class without inadvertently disadvantaging the PMM compared to if the order was not preferred. The regular allocation entitlements for PMMs, including the small order entitlement, are designed to balance the obligations that the PMM has to the market with corresponding benefits. The Exchange believes that it is appropriate to provide the small order entitlement also when the PMM is

designated as a Preferred Market Maker as the obligations that the PMM has to the market are not diminished when it receives a Preferred Order. MIAX similarly provides the small order entitlement to the PMM regardless of whether the order is submitted as a Preferred Order.¹² At the same time, the proposed rule change does not amend the current participation rights for Preferred CMMs, which is also consistent with allocation rules of MIAX. While the Exchange believes that it is appropriate to grant PMMs an allocation entitlement for small sized orders preferred to them in recognition of the obligations that PMMs have to maintain fair and orderly markets, the Exchange does not believe that it is appropriate at this time to extend this entitlement to CMMs, preferred or otherwise.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,¹³ the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is designed to allow EAMs to send Preferred Orders to the PMM appointed in an options class without inadvertently disadvantaging the PMM by reducing its participation rights. The proposed allocation entitlements are equivalent to those currently in effect on another options exchange.¹⁴ The proposed rule change is therefore not designed to impose any significant burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section

19(b)(3)(A)(iii) of the Act¹⁵ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁶

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹⁷ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹⁸ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Exchange represents that waiver of the operative delay would allow the Exchange to implement this proposed rule change prior to a significant symbol rollout to the INET technology. The Exchange states that symbols that account for approximately 35% of industry volume are scheduled to be migrated to the new INET trading system on March 27, 2017, with additional symbols accounting for roughly 62% of industry volume scheduled to be migrated on April 3, 2017. Further, for symbols that have already migrated to INET, the Exchange represents that the small order entitlement will be applied to such symbols starting on the implementation date to be announced to the members in a circular. Accordingly, the Commission hereby waives the operative delay and designates the proposal operative upon filing.¹⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings

¹⁵ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁶ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
