consideration during the original postponement of the effective date of the regulation establishing test procedures for compressors. Therefore, DOE hereby further temporarily postpones the effective date of that test procedure regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this test procedure is postponed until July 3, 2017, the date on which the statute requires compliance.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary. The January 21, 2020, compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on March 15, 2017.

John T. Lucas,
Acting General Counsel.

[Docket No. EERE–2012–BT–STD–0045]

RIN 1904–AD28

Energy Conservation Program: Energy Conservation Standards for Ceiling Fans

ACTION: Final rule; further delay of effective date.

SUMMARY: This document further delays the effective date of a recently published final rule amending the energy conservation standards for ceiling fans.

SUPPLEMENTARY INFORMATION: On January 31, 2017, the United States Department of Energy (“DOE”) temporarily postponed the effective date of its final rule amending the energy conservation standards for ceiling fans published in the Federal Register on January 19, 2017. See 82 FR 8806. The January 31 rule temporarily postponed the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date was necessary to give the newly appointed Secretary of Energy (Secretary) the opportunity for further review and consideration of the regulation. However, the Secretary was not confirmed and did not begin work in his position until March 3, 2017. As a result, the Secretary was unable to accomplish the review and consideration during the original postponement of the effective date of the regulation establishing energy conservation standards for ceiling fans. Therefore, DOE hereby further temporarily postpones the effective date of that energy conservation standards regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this test procedure is postponed until September 30, 2017.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on March 15, 2017.

John T. Lucas,
Acting General Counsel.

DEPARTMENT OF ENERGY

10 CFR Part 435

RIN 1904–AD56

ACTION: Final rule; further delay of effective date.

SUMMARY: This document further temporarily postpones the effective date of a recently published final rule amending the baseline Federal building standards.

DATES: As of March 21, 2017, the effective date of the rule amending 10 CFR part 435 published in the Federal Register at 82 FR 2857 on January 10, 2017, delayed until March 21, 2017 at 82 FR 9343 on February 6, 2017, is further delayed until September 30, 2017. The incorporation by reference of the publication listed in this rule is
approved by the Director of the Federal Register as of September 30, 2017.

SUPPLEMENTARY INFORMATION: On February 6, 2017, the United States Department of Energy ("DOE") temporarily postponed the effective date of its final rule amending the baseline Federal building standards published in the Federal Register on January 10, 2017, See 82 FR 9343. The January 31st rule temporarily postponed the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date was necessary to give the newly appointed Secretary of Energy (Secretary) the opportunity for further review and consideration of new regulations. However, the Secretary was not confirmed and did not begin work in his position until March 3, 2017. As a result, the Secretary was unable to accomplish the review and consideration during the original postponement of the effective date of the regulation establishing the baseline Federal building standards. Therefore, DOE hereby further temporarily postpones the effective date of that baseline Federal building standards regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this regulation is postponed until September 30, 2017. This will not change the statutory compliance date, which will remain on January 10, 2018.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary. The January 10, 2018, compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on March 15, 2017.

John T. Lucas
Acting General Counsel.

BILLING CODE 6450–01–P

SMALL BUSINESS ADMINISTRATION

13 CFR Part 107

RIN 3245–AG67

Small Business Investment Companies: Passive Business Expansion and Technical Clarifications

AGENCY: U.S. Small Business Administration.

ACTION: Final rule; delay of effective date.

SUMMARY: On December 28, 2016, the Small Business Administration (SBA) published a final rule to expand permitted investments in passive businesses and provide further clarification with regard to investments in such businesses. SBA’s prior approval, to provide further clarification with regard to investments in such businesses and provide further clarification with regard to investments in such businesses. SBIC program regulations provide for two exceptions that allow an SBIC to structure an investment utilizing a passive small business as a pass-through. The first exception provides conditions under which an SBIC may structure an investment through up to two levels of passive entities to make an investment in a non-passive business that is a subsidiary of the passive business directly financed by the SBIC. The second exception, prior to this final rule, enabled a partnership SBIC, with SBA’s prior approval, to provide financing to a small business through a passive, wholly-owned C corporation (commonly known as a blocker corporation), but only if a direct financing would cause the SBIC’s investors to incur Unrelated Business Taxable Income (UBTI). This final rule clarifies several aspects of the first

other exception to SBA’s prior approval. The SBA has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. SBA is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary. The January 17, 2018, compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 20 effective date established by the prior temporary postponement. For these same reasons SBA finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on January 10, 2018.

John T. Lucas
Acting General Counsel.
