

services to feature a “buy” button that a consumer must click on in order to obtain digital content, and they offered differing views as to what consumers believe they have obtained when they click on such a button.

The goal of this meeting is to explore issues and facilitate a discussion on how best to ensure that license terms related to copyright are clearly and effectively communicated to potential consumers in the online environment. We will not address whether the first sale doctrine should be applicable to digital transmissions, which the White Paper discussed at length (see *Background* Section above), or what license terms should or should not be imposed, but will focus on non-legislative solutions, which may include voluntary best practices.

One discussion topic will focus on what copyright-related terms and conditions are important to communicate to consumers in the online environment. Some examples of possible terms include: Ownership (*i.e.*, whether ownership is transferred); use restrictions (*e.g.*, restrictions for noncommercial purposes; geographical limitations; limits to a certain number of viewings or devices); and/or transfer conditions (*e.g.*, restrictions on resale or other distribution).

Another discussion topic will focus on identifying best practices for how to inform consumers about the intellectual property rights associated with the content they are accessing or acquiring, and what activities they are permitted to engage in without implicating those rights. Questions to be addressed may include:

- What term or terms can clearly communicate what consumers are paying for?
- What term or terms should not be used (*e.g.*, “buy,” “own,” or “purchase”) in a digital transaction that is not a sale?
- Would a standardized form of notice, placed in or accessed from a conspicuous location on an e-commerce Web site or app be helpful?
- Would standard icons or symbols be helpful in communicating the terms, and what might those look like?
- Are there consumer messaging models from other fields (*e.g.*, in the consumer privacy context) that can provide useful lessons or examples in this area?

Finally, participants should be prepared to discuss whether additional work should be done to identify best practices in this area, and if so, in what forum and how.

Public Meeting

On April 18, 2017, the Task Force will hold a public meeting to hear views on these issues, including on the process going forward. We seek participation and comment from interested stakeholders, including in particular online services that offer digital transmissions of works to consumers, as well as creators, right holders, consumers, marketing professionals, user interface designers, public interest groups, and academics.

The agenda for the public meeting will be available no later than the week prior to the meeting, and the meeting will be webcast and transcribed. The agenda and webcast information will be available on the Internet Policy Task Force Web site, <http://www.ntia.doc.gov/internetpolicytaskforce>, and the USPTO's Web site, <https://www.uspto.gov/learning-and-resources/ip-policy/copyright/internet-policy-task-force>.
