Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Coal Mine Operator Response to Schedule for Submission of Additional Evidence (Form CM–2970) and Operator Response to Notice of Claim (Form CM–2970a) information collection. The OWCP, Division of Coal Mine Workers' Compensation (DCMWC) administers the Black Lung Benefits Act (30 U.S.C. 901 et seq.), which provides benefits to coal miners totally disabled due to pneumoconiosis and their surviving dependents. When the DCMWC makes a preliminary analysis of a claimant's eligibility for benefits, and if a coal mine operator has been identified as potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations codified at 20 CFR part 725 require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. Forms CM–2790 and CM–2970a are used for claims filed after January 19, 2001, and indicate that the coal mine operator will submit additional evidence or respond to the notice of claim. Black Lung Benefits Act section 426 authorizes this information collection. See 30 U.S.C. 936.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240–0033.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information

about this ICR, see the related notice published in the **Federal Register** on November 9, 2016 (81 FR 78863).

- (2) Procedures to show how the miners will be notified of an emergency;
- (3) An escape plan for each working area in the mine, including instructions showing how each working area should be evacuated;
- (4) A firefighting plan;
- (5) Surface procedures to be followed in an emergency, including the notification of proper authorities and the preparation of rescue equipment and other equipment which may be used in rescue and recovery operations; and
