

this structure would be to control parking access and collect parking fees.

Water Tank: The ski area's current culinary water storage tank is insufficient in capacity and in need of replacement. A new 120,000-gallon steel, above-ground tank would be installed west of the snowmaking reservoir, in a grove of trees on the skier's left side of Snake ski run. This site is accessible, adjacent to in-place piping, and partially screened by vegetation. The existing concrete tank would be abandoned in place, as it is buried beneath occupied sensitive habitat on the Bimbo run.

Lead and Cooperating Agencies: The Forest Service will be the lead federal agency in accordance with *40 Code of Federal Regulations (CFR) 1501.5(b)* and is responsible for the preparation of the EIS. Scoping will determine if any cooperating agencies are needed.

Responsible Official: The Forest Service responsible official for this EIS is William A. Dunkelberger, Forest Supervisor, Humboldt-Toiyabe National Forest Supervisor's Office, 1200 Franklin Way, Sparks, Nevada 89431, phone (775) 355-5310.

Decision to Be Made: The responsible official will decide whether to authorize Lee Canyon to implement the action as proposed or modified, or to take no action. The responsible official will also decide what mitigation measures and monitoring will be required. A Forest Plan amendment may be required for one or more actions to be authorized (SMNRA GMP, Management Area 11.57 Standards and Guidelines, p. 11-35).

Preliminary Issues: Preliminary issues include potential effects on: watershed resources, special-status plant and animal species, heritage resources, and scenic integrity.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A DEIS will be prepared for comment. The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the Notice of Availability in the **Federal Register**.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or sections of the DEIS. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the DEIS. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National

Environmental Policy Act at *40 CFR 1503.3* in addressing these points.

Dated: March 13, 2017.

William A. Dunkelberger,

Forest Supervisor.
