

planning. The 2016 ASE also includes additional questions on business financing relationships, owner demographics, and regulations. The new content developed for 2016 is intermingled with the existing content. The module selected for the 2014 ASE focused on business innovation and research and development (R&D) activity. The goal of the 2014 module was to identify new forms of innovation, identify characteristics of businesses that are innovators, and measure R&D activity conducted by entrepreneurs. The module selected for the 2015 ASE focused on business management practices. The goal of the 2015 module was to measure how management practices impact productivity and growth.

The ASE collection is electronic only. Those selected for the survey receive an initial letter informing the respondents of their requirement to complete the survey as well as instructions on accessing the survey. The 2016 ASE initial mail is scheduled for June 2017. Responses will be due approximately 40 days from initial mail. Select respondents will receive a due date reminder approximately one week before responses are due.

Additionally, there will be two follow-up letter mailings to nonrespondents after the due date. Select nonrespondents will receive a certified mailing for the second follow-up if needed. Closeout of mail operations is scheduled for November 2017. Upon the close of the collection period, the response data will be processed, edited, reviewed, tabulated, and released publicly.

The survey will collect data on the gender, ethnicity, race, and veteran status for up to four persons owning the majority of rights, equity, or interest in the business. These data are needed to evaluate the extent and growth of business ownership by women, minorities, and veterans in order to provide a framework for assessing and directing federal, state, and local government programs designed to promote the activities of disadvantaged groups.

This data is widely used by private firms and individuals to evaluate their own businesses and markets. Additionally, the data will be used by entrepreneurs to write business plans and loan application letters, by the media for news stories, by researchers and academia for determining firm characteristics, and by the legal profession in evaluating the concentration of minority businesses in particular industries and/or geographic areas. The ASE statistics are used by

government program officials, industry organization leaders, economic and social analysts, researchers, and business entrepreneurs. Additional examples of data use include:

- The Small Business Administration (SBA) and the Minority Business Development Agency (MBDA) to assess business assistance needs and allocate available program resources.
- Local government commissions on small and disadvantaged businesses to establish and evaluate contract procurement practices.
- Federal, state and local government agencies as a framework for planning, directing and assessing programs that promote the activities of disadvantaged groups.
- The National Women's Business Council to assess the state of women's business ownership for policymakers, researchers, and the public at large.
- Consultants and researchers to analyze long-term economic and demographic shifts, and differences in ownership and performance among geographic areas.
- Individual business owners to analyze their operations in comparison to similar firms, compute their market share, and assess their growth and future prospects.

Affected Public: Business and other for-profit; Not-for-profit institutions; State, local or Tribal governments.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 of the United States Code, Sections 8(b), 131, and 182 authorizes this collection. On behalf of the Secretary of Commerce, pursuant to Section 1(a)(3) of Executive Order 11625, the MBDA may enter into this agreement with the Census Bureau to establish a center for the development, collection, summation, and dissemination of information that will be helpful to persons and organizations throughout the nation in undertaking or promoting the establishment and successful operation of minority business enterprises.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Telecommunications and Information Administration.

Title: NTIA/FCC Web-based Frequency Coordination System.

OMB Control Number: 0660-0018.

Form Number(s): N/A.

Type of Request: Regular submission (extension of currently approved information collection).

Number of Respondents: 4000.

Average Hours per Response: 15 minutes.

Burden Hours: 1000.

Needs and Uses: NTIA hosts a Web-based system that collects specific identification information (e.g., company name, location and projected range of the operation, etc.) from applicants seeking to operate in existing and planned radio frequency (RF) bands that are shared on a co-primary basis by federal and non-federal users. The Web-based system provides a means for non-federal applicants to rapidly determine the availability of RF spectrum in a specific location, or a need for detailed frequency coordination of a specific newly proposed assignment within the shared portions of the radio spectrum. The system helps expedite the coordination process for non-federal applicants while assuring protection of government data relating to national security.

Affected Public: Applicants seeking to operate in the 71-76 GHz, 81-86 GHz, and 92-95 GHz radio frequency bands.

Frequency: Once per applicant.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

PRA Departmental Lead, Office of the Chief Information Officer.
