

National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Node.js Foundation has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Specifically, DigitalOcean, New York, NY; Apigee Corporation, San Jose, CA; AppDynamics, Inc., San Francisco, CA; New Relic, Inc., San Francisco, CA; and Opbeat, Inc., San Francisco, CA, have withdrawn as parties to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Node.js Foundation intends to file additional written notifications disclosing all changes in membership.

On August 17, 2015, Node.js Foundation filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on September 28, 2015 (80 FR 58297).

The last notification was filed with the Department on September 29, 2016. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on November 3, 2016 (81 FR 76629).

## DEPARTMENT OF JUSTICE

### Antitrust Division

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—Fd.io Project, Inc.

Notice is hereby given that, on March 6, 2017, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), fd.io Project, Inc. (“fd.io”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, NXP Semiconductor, Inc. (Freescale), Austin, TX; and

Mesosphere, Inc., San Francisco, CA, have withdrawn as parties to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and fd.io intends to file additional written notifications disclosing all changes in membership.

On May 4, 2016, fd.io filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on June 9, 2016 (81 FR 37211).

The last notification was filed with the Department on December 21, 2016. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on January 31, 2017 (82 FR 8857).

**Patricia A. Brink,**

*Director of Civil Enforcement, Antitrust Division.*

## NATIONAL SCIENCE FOUNDATION

### Notice of Intent To Seek Approval To Establish an Information Collection

**AGENCY:** National Science Foundation.

**ACTION:** Notice and request for comments.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to seek approval for the Survey of Public Attitudes Toward and Understanding of Science and Technology, an existing collection in use without an OMB Control Number. In accordance with the requirement set forth in the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for three years.

*Comments:* Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments on this notice must be received by May 26, 2017 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, NSF Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

#### SUPPLEMENTARY INFORMATION:

*Title of Collection:* Survey of Public Attitudes Toward and Understanding of Science and Technology.

*OMB Approval Number:* 3145—NEW.

*Type of Request:* Intent to seek approval for an existing collection in use without an OMB control number.

1. *Abstract:* Established within the NSF by the America COMPETES Reauthorization Act of 2010 § 505, codified in the National Science Foundation Act of 1950, as amended, the National Center for Science and Engineering Statistics (NCSES) serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public. The Survey of Public Attitudes Toward and Understanding of Science and Technology (henceforth “S&T Attitudes Survey”) will be part of this data collection system, focused on public support for, understanding of, and attitudes toward science and technology.

The S&T Attitudes Survey has been collected as a module within the General Social Survey (GSS), an investigator-initiated grant survey conducted by the National Opinion Research Center (NORC) at the University of Chicago, since 2006. The module is funded by the National Center for Science and Engineering Statistics within NSF. NSF recognizes that this data collection is not currently cleared by the Office of Management and Budget, and seeks to bring it into compliance.

The S&T Attitudes Survey contains questions measuring a wide variety of topics, including following science in the media, attendance at informal science institutions such as museums, interest in science, knowledge of
