[Case No. CR-006]

Notice of Petition for Waiver of AHT Incorporated From the Department of Energy Commercial Refrigeration Equipment Test Procedures and Partial Grant of Interim Waiver

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and partial grant of interim waiver, and request for public comment.

SUMMARY: This notice announces receipt of and publishes a petition for waiver from AHT Cooling Systems GmbH and AHT Cooling Systems USA Inc. (AHT) seeking an exemption from specified portions of the U.S. Department of Energy (DOE) test procedure for determining the energy consumption of multi-mode commercial refrigeration equipment. ASHRAE Standard 72-2005, incorporated by reference in Appendix B, does not provide for defrost testing with built-in cooling coils into the body of AHT's unique multi-mode commercial refrigeration equipment basic models. Consequently, AHT submitted to DOE an alternate test procedure that allows for testing of six specified basic models with a different defrost cycle. This notice also announces that DOE has granted AHT an interim waiver from the DOE commercial refrigeration equipment test procedures for the specified commercial refrigeration equipment basic models, subject to use of the alternative test procedure as set forth in this notice. DOE solicits comments, data, and information concerning AHT's petition and its suggested alternate test procedure.

DATES: DOE will accept comments, data, and information with regard to the AHT petition until April 27, 2017.

ADDRESSES: You may submit comments, identified by Case Number CR-006, by any of the following methods:
