

FAST Act

Section 5503 of the FAST Act (Pub. L. 114–94) (December 4, 2015) requires the HHG Working Group to provide recommendations to the Secretary of Transportation, through the FMCSA Administrator. The Working Group will operate in accordance with the Federal Advisory Committee Act (FACA). 5 U.S.C. App. 2.

As required by Section 5503 of the FAST Act, the Working Group will make recommendations in three areas relating to “how to best convey to consumers relevant information with respect to the Federal laws concerning the interstate transportation of household goods by motor carrier.” Those areas are:

1. How to condense the FMCSA “Ready to Move ?” tips published in April 2006 (FMCSA–ESA–03–005) into a more consumer friendly format;
2. How best to use state-of-the-art education techniques and technologies (including how to optimize use of the Internet as an educational tool); and
3. How to reduce and simplify the paperwork required of motor carriers and shippers in interstate transportation.

Section 5503 mandates that the Secretary of Transportation appoint a Working Group that is comprised of (i) individuals with expertise in consumer affairs; (ii) educators with expertise in how people learn most effectively; and (iii) representatives of the FMCSA regulated interstate HHG moving industry.

On April 20, 2016, FMCSA solicited applications and nominations of interested persons to serve on the HHG Working Group. Applications and nominations were due on or before May 20, 2016 [81 FR 23354]. The HHG Working Group met for the first time on January 4–5, 2017.

The Working Group will terminate one year after the date its recommendations are submitted to the Secretary of Transportation.

Meeting Information

Meetings will be open to the general public, except as provided under FACA. Notice of each meeting will be published in the **Federal Register** at least 15 calendar days prior to the date of the meeting.

For the May 2–4, 2017, meeting, oral comments from the public will be heard from 10:00 a.m. to 11:00 a.m. on May 4, 2017. Should all public comments be exhausted prior to the end of the specified oral comment period, the comment period will close.

Issued on: March 23, 2017.

William A. Quade,

Associate Administrator for Enforcement.

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for two years if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the two-year period.

The physical qualification standard for drivers regarding hearing found in 49 CFR 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person:

First perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid

when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5—1951.

49 CFR 391.41(b)(11) was adopted in 1970, with a revision in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971).

The 31 individuals listed in this notice have requested renewal of their exemptions from the hearing standard in 49 CFR 391.41(b)(11), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits and decided to extend each exemption for a renewable two-year period.

II. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application. In accordance with 49 U.S.C. 31136(e) and 31315, each of the twelve applicants has satisfied the renewal conditions for obtaining an exemption from the hearing requirement (80 FR 57032; 80 FR 60747). In addition, for Commercial Driver's License (CDL) holders, the Commercial Driver's License Information System (CDLIS) and the Motor Carrier Management Information System (MCMIS) are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver's Licensing Agency (SDLA). These factors provide an adequate basis for predicting each driver's ability to continue to safely operate a CMV in interstate commerce.

The 31 drivers in this notice remain in good standing with the Agency and have not exhibited any medical issues that would compromise their ability to safely operate a CMV during the previous two-year exemption period. FMCSA has concluded that renewing the exemptions for each of these applicants is likely to achieve a level of safety equal to that existing without the

exemption. Therefore, FMCSA has decided to renew each exemption for a two-year period. In accordance with 49 U.S.C. 31136(e) and 31315, each driver has received a renewed exemption.

As of March 3, 2017, the following 7 individuals have satisfied the renewal conditions for obtaining an exemption from the hearing requirement in 49 CFR 391.41(b)(11), from driving CMVs in interstate commerce (80 FR 60747):

The driver is prohibited from operating a motorcoach or bus with passengers in interstate commerce. The exemption does not exempt the individual from meeting the applicable CDL testing requirements. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

II. Background

On January 12, 2017, FMCSA published a notice of receipt of Federal diabetes exemption applications from 47 individuals and requested comments from the public (82 FR 3845). The public comment period closed on February 13, 2017, and no comments were received.

FMCSA has evaluated the eligibility of the 47 applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current requirement for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population. The diabetes rule

provides that "A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control" (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency's July 2000 study entitled "A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century." The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 52441), **Federal Register** notice in conjunction with the November 8, 2005 (70 FR 67777), **Federal Register** notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These 47 applicants have had ITDM over a range of 1 to 41 years. These applicants report no severe hypoglycemic reactions resulting in loss of consciousness or seizure, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning symptoms, in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the past 5 years. In each case, an endocrinologist verified that the driver has demonstrated a willingness to properly monitor and manage his/her diabetes mellitus, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision requirement at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the January 12, 2017, **Federal Register** notice and they will not be repeated in this notice.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes requirement in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.
