

to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments. The EM SSAB, Paducah, will hear public comments pertaining to its scope (clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long-term stewardship; risk assessment and management; and clean-up science and technology activities). Comments outside of the scope may be submitted via written statement as directed above.

Minutes: Minutes will be available by writing or calling Jennifer Woodward at the address and phone number listed above. Minutes will also be available at the following Web site: http://www.pgdpceb.energy.gov/2017_meetings.htm.

Issued at Washington, DC, on March 28, 2017.

LaTanya R. Butler,

Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Northern New Mexico

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a combined meeting of the Environmental Monitoring and Remediation Committee and Waste Management Committee of the Environmental Management Site-Specific Advisory Board (EM SSAB), Northern New Mexico (known locally as the Northern New Mexico Citizens' Advisory Board [NNMCAB]). The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, April 19, 2017, 1:00 p.m.–4:00 p.m.

ADDRESSES: NNMCAB Office, 94 Cities of Gold Road, Pojoaque, NM 87506.

FOR FURTHER INFORMATION CONTACT: Menice Santistevan, Northern New Mexico Citizens' Advisory Board, 94 Cities of Gold Road, Santa Fe, NM 87506. Phone (505) 995-0393; Fax (505)

989-1752 or Email:

menice.santistevan@em.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

Purpose of the Environmental Monitoring and Remediation Committee (EM&R): The EM&R Committee provides a citizens' perspective to NNMCAB on current and future environmental remediation activities resulting from historical Los Alamos National Laboratory (LANL) operations and, in particular, issues pertaining to groundwater, surface water and work required under the New Mexico Environment Department Order on Consent. The EM&R Committee will keep abreast of DOE-EM and site programs and plans. The committee will work with the NNMCAB to provide assistance in determining priorities and the best use of limited funds and time. Formal recommendations will be proposed when needed and, after consideration and approval by the full NNMCAB, may be sent to DOE-EM for action.

Purpose of the Waste Management (WM) Committee: The WM Committee reviews policies, practices and procedures, existing and proposed, so as to provide recommendations, advice, suggestions and opinions to the NNMCAB regarding waste management operations at the Los Alamos site.

Tentative Agenda

- Call to Order and Introductions
- Approval of Agenda
- Old Business
 - Mid-year Review of Committee Work Plans
- New Business
- Update from NNMCAB Co-Deputy Designated Federal Officers
- Public Comment Period
- Presentation by DOE-EM
- Update on Budget and Priorities from DOE-EM
- Adjourn

Public Participation: The NNMCAB's Committees welcome the attendance of the public at their combined committee meeting and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Menice Santistevan at least seven days in advance of the meeting at the telephone number listed above. Written statements may be filed with the Committees either before or after the meeting. Individuals

who wish to make oral statements pertaining to agenda items should contact Menice Santistevan at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Menice Santistevan at the address or phone number listed above. Minutes and other Board documents are on the Internet at: <http://energy.gov/em/nnmcab/northern-new-mexico-citizens-advisory-board>.

Issued at Washington, DC, on March 28, 2017.

LaTanya R. Butler,

Deputy Committee Management Officer.

BILLING CODE 6405-01-P

DEPARTMENT OF ENERGY

Notice of Intent to Grant Exclusive License

AGENCY: Office of the General Counsel, Department of Energy.

ACTION: Notice of intent to grant exclusive patent license.

SUMMARY: The Department of Energy (DOE) hereby gives notice that DOE intends to grant an exclusive license to practice the inventions described and claimed in U.S. Patent Number 7,531,808, titled "Method for the Depth Connected Detection of Ionizing Events from a Co-Planar Grids Sensor" to Brookhaven Science Associates, LLC., having its principal place of business at Upton, New York. The patent is owned by the United States of America, as represented by DOE. The prospective exclusive license complies with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

DATES: Written comments, objections, or nonexclusive license applications must be received at the address listed no later than April 18, 2017.

ADDRESSES: Comments, applications for nonexclusive licenses, or objections relating to the prospective exclusive license should be submitted to the Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, Room 6F-067, 1000 Independence Ave. SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

Marianne Lynch, Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, Room 6F-067, 1000 Independence Ave. SW., Washington, DC 20585; Email: marianne.lynch@hq.doe.gov; and Phone: (202) 586-3815.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) give DOE the authority to grant exclusive or partially exclusive licenses in federally-owned inventions where a determination is made, among other things, that the desired practical application of the invention has not been achieved, or is not likely to be achieved expeditiously, under a nonexclusive license. The statute and implementing regulations (37 CFR 404) require that the necessary determinations be made after public notice and opportunity for filing written comments and objections.

Brookhaven Science Associates has applied for an exclusive license to practice the inventions embodied in the patent and has plans for commercialization of the invention.

Within 15 days of publication of this notice, any person may submit in writing to DOE's General Counsel for Intellectual Property and Technology Transfer Office (see contact information), either of the following, together with supporting documents:

(i) A statement setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or (ii) An application for a nonexclusive license to the invention, in which applicant states that it already has brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The proposed license would be exclusive, subject to a license and other rights retained by the United States, and subject to a negotiated royalty. DOE will review all timely written responses to this notice, and will grant the licenses if, after expiration of the 15-day notice period, and after consideration of any written responses to this notice, a determination is made in accordance with 35 U.S.C. 209(c) that the licenses are in the public interest.

Brian Lally,

Assistant General Counsel for Technology Transfer and Intellectual Property.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket Nos. PP-423, PP-424 and PP-425]

Notice of Issuance of Presidential Permits

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Issuance.

SUMMARY: On February 13, 2017, the Department of Energy (DOE) Office of Electricity Delivery and Energy Reliability issued Presidential permits PP-423, PP-424, and PP-425 to AEP Texas Inc., transferring the authorizations in PP-94, PP-210, and PP-317 to a new corporate entity.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at 202-586-5260, or by email to Christopher.Lawrence@hq.doe.gov, or Katherine Konieczny (Program Attorney) at 202-586-0503.

SUPPLEMENTARY INFORMATION: AEP Texas Central Company (AEP TCC) and AEP Utilities, Inc. (AEP Utilities) filed joint applications to voluntarily transfer the facilities authorized by Presidential permit Nos. PP-94, PP-219, and PP-317 to AEP Texas Inc. on July 20, 2016. The applications requested that the Department of Energy (DOE) rescind the Presidential permits held by AEP TCC and simultaneously issue permits to AEP Texas Inc., the new name of AEP Utilities, covering the same international transmission facilities from the previous permits. DOE issued the new Presidential permits on February 13, 2017.

DOE deemed the rescission and reissuance of these permits to be primarily clerical in nature because the facilities at issue already exist and there will be no physical or operational changes to the facilities. The prior permit holder is a direct, wholly-owned subsidiary of the current entity that will own and operate the facilities after a corporate reorganization. There will be no change in ultimate control of the facilities; they will be owned and operated by a different entity in the same chain of ownership of the facilities.

Prior to issuing any new Presidential permit, however, DOE must obtain concurrence from the Departments of State and Defense pursuant to Executive Order 10485, as amended by Executive Order 12038. DOE obtained such concurrence from the Department of State and the Department of Defense on December 28, 2016 and January 18, 2017, respectively, for the issuances of PP-423, PP-424 and PP-425.

Issued in Washington, DC, on February 13, 2017.

Christopher A. Lawrence,

Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Proposed Subsequent Arrangement**

AGENCY: Office of Nonproliferation and Arms Control, Department of Energy.

ACTION: Proposed subsequent arrangement.

SUMMARY: This document is being issued under the authority of the Atomic Energy Act of 1954, as amended. The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy between the United States and the European Atomic Energy Community (Euratom).

DATES: This subsequent arrangement will take effect no sooner than April 18, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Goorevich, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, Department of Energy. Telephone: 202-586-0589 or email: Richard.Goorevich@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This subsequent arrangement concerns the change of end use and alteration in form and content of 3.510 kg of U.S.-obligated high enriched uranium (HEU), 3.264 kg of which is in the isotope of U-235 (~93.00 percent enrichment). This material was among the 93.5 kg of HEU, 87.3 kg of which was in the isotope of U-235 (93.35 percent enrichment), which was exported, pursuant to export license XSNM3622, to Compagnie pour l'Etude et la Réalisation de Combustibles Atomiques (CERCA), Romans, France to be manufactured into fuel for the BR2 research and isotope production reactor in Belgium. The remaining HEU that is at CERCA, currently in the form of U-metal (1.410 kg U^{Tot}) and UAl_x-powder (2.10 kg U^{Tot}), will be fabricated into HEU targets (dispersion UAl_x-Al, annular geometry) for commercial production of medical radioisotopes. The targets will be irradiated in BR2 (Belgium), High Flux Reactor (The Netherlands), LVR-15 (Czech Republic) and Maria (Poland) research reactors. The irradiated targets will be transferred to the Institute for Radioelements facility in Belgium
