

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission use an FRN.

On July 14, 2016, the Commission released a Report and Order in which it established the Upper Microwave Flexible Use Service authorizing mobile use in the 27.5–28.35 GHz, 37–38.6 GHz, and 38.6–40 GHz (39 GHz) bands, See Use of Spectrum Bands Above 24 GHz For Mobile Radio Services, et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 16–89, 31 FCC Rcd 8014 (2016). Of relevance to the information collection at issue here, the Commission established a process by which 39 GHz licensees can conduct a voluntary, pre-auction license swap or exchange which would give licensees the opportunity to consolidate their licensed blocks into larger tranches of contiguous spectrum thereby leaving more valuable empty contiguous channel blocks for the Commission to auction.

The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060–0798 to permit the collection of the additional information for Commission licenses and permits, pursuant to the information collection requirements adopted by the Commission in the

Spectrum Frontiers R&O, including the provisions authorizing voluntary channel swaps. We are proposing to revise schedule E of form 601 to allow licensees to file a modification to indicate active licenses and leases they are requesting authorization to swap. We do not anticipate that this revision will have any impact on the burden to complete the form.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise FCC Form 601 accordingly.

incorporate various revisions to it as a result of revisions to the SORN.

Needs and Uses: On October 29, 2013, in document FCC 13–138, Report and Order and Further Notice of Proposed Rulemaking (the User Interfaces Accessibility Order), MB Docket Nos. 12–108, 12–107, published at 78 FR 77210, December 20, 2013, the Commission adopted rules implementing sections 204 and 205 of the CVAA related to making accessible the user interfaces, text menus and guides of digital apparatus designed to receive or play back video programming and navigation devices for the display or selection of multichannel video programming. On November 20, 2015, in document FCC 15–156, the Commission released a Second Report and Order, Order on Reconsideration, and Second Further Notice of Proposed Rulemaking (the Second User Interfaces Accessibility Order), MB Docket No. 12–108, published at 81 FR 5921, February 14, 2016, adopting additional rules to ensure that consumers are able to find out about what accessible devices and features are available from covered manufacturers and multichannel video programming distributors (MVPDs) and how to use such devices and features. Collectively, these rules are codified at 47 CFR 79.107–79.110.

Covered entities are required to comply with the rules and information collection requirements contained in the User Interfaces Accessibility Order and in the Second User Interfaces Accessibility Order beginning December 20, 2016.

The Commission is submitting this revised information collection to transfer certain information collection burdens associated with this OMB Control Number 3060–1203 to OMB Control Number 3060–0874. This transfer is being made because the Commission's online consumer complaint portal, which is part of the information collection contained in OMB Control Number 3060–0874, is being revised to enable consumers to file complaints related to the Commission's user interfaces accessibility requirements through the Commission's online complaint portal.

OMB Control Number: 3060–0874.

Form Number: N/A.

Respondents: Individuals or households; Business or other for-profit entities; Not for profit institutions; State, Local or Tribal Government.

Number of Respondents and Responses: 335,979 respondents; 335,979 responses.

Estimated Time per Response: 15 minutes (.25 hours) to 30 minutes (.50 hours).

Nature and Extent of Confidentiality: Confidentiality is an issue to the extent that individuals and households provide personally identifiable information, which is covered under the FCC's updated system of records notice (SORN), FCC/CGB–1, "Informal Complaints, Inquiries and Requests for Dispute Assistance." Privacy Impact Assessment: The FCC completed a Privacy Impact Assessment (PIA) on June 28, 2007. It may be reviewed at <http://www.fcc.gov/omd/privacyact/Privacy-Impact-Assessment.html>. The Commission is in the process of updating the PIA to incorporate various revisions to it as a result of revisions to the SORN.

Needs and Uses: The Commission consolidated all of the FCC informal consumer complaint intake into an online consumer complaint portal, which allows the Commission to better manage the collection of informal consumer complaints. Informal consumer complaints consist of informal consumer complaints, inquiries and comments. This revised information collection requests OMB approval for the addition of a layer of consumer reported complaint information related to the FCC's disability accessibility requirements for video programming digital apparatus and navigation device user interfaces (e.g., TV and set-top box controls, menus, and program guides).

The information collection burdens associated with these complaints is being transferred from OMB Control Number 3060–1203 to OMB Control Number 3060–0874 to enable consumers to file complaints related to the

Commission's user interfaces accessibility requirements through the Commission's online complaint portal.
