

Agency Preferred Alternative identified in the Final EIS as the route for the Project. The Agency Preferred Alternative route will be the basis for design and engineering activities that will finalize the centerline, ROW, and access road locations. Additionally, this ROD commits WAPA and TransWest to implement mitigation measures committed to in the project POD, as practicable, to minimize environmental impacts. WAPA will continue coordination of the detailed POD with TransWest, the BLM and other applicable land-managing agencies. Selection of the Agency Preferred Alternative will help inform WAPA's Federal action(s) to consider any received or anticipated loan application permitted under its borrowing authority and/or exercise its options for participation in the Project. These considerations are contingent on the successful development of participation agreements as well as any and all documentation and commitments needed to satisfy customary financial underwriting standards. This ROD was prepared in accordance with the requirements of the CEQ regulations for implementing NEPA (40 CFR parts 1500–1508) and DOE NEPA regulations (10 CFR part 1021).
