

industry research and development (R&D) needs, discuss capabilities of the national laboratories, and provide guidance to industry on how to engage with the national laboratories to accelerate innovation and achieve bottom-line results.

**DATES:** DOE will host the Summit from 7:30 a.m. to 7:00 p.m. on May 4, 2017.

**ADDRESSES:** The Summit will be held at The National Press Club, 529 14th St NW., Washington, DC 20045.

**FOR FURTHER INFORMATION CONTACT:** Aleksandra Lemke, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585. Telephone: (720)-648-4381. Email: [Aleksandra.Lemke@EE.DOE.Gov](mailto:Aleksandra.Lemke@EE.DOE.Gov).

**SUPPLEMENTARY INFORMATION:**

**Background**

The Executive Summit provides a premier opportunity to learn how DOE-funded research at the national laboratories and beyond is addressing the hydropower industry's R&D needs—and how companies can directly partner with the labs to accelerate innovation and achieve bottom-line results. The Summit will bring together hydropower industry executives, government leaders, and technology researchers to showcase how private-sector and national lab partnerships are successfully addressing critical technology challenges to improve the competitiveness of American hydropower businesses across the country. Invited participants from industry will include design, consulting, assessment, and operations professionals with experience in addressing the short- and long-term challenges of hydropower development and operations.

The information provided and discussed throughout this summit will be compiled in a summary report, which will provide clarity on how the capabilities of DOE's National Laboratories and other DOE Hydropower Program resources align with the perceived and prioritized R&D needs of the industry as outlined in the recently-published DOE Hydropower Vision. The Vision includes a roadmap outlining potential actions, in a non-prescriptive manner, for consideration by all hydropower stakeholder sectors. The workshop sessions will address four primary categories of R&D activities included in the roadmap: (1) Enhanced Revenue and Market Structures, (2) Optimization of Hydropower Security, Reliability, and Value Sustainable Development and Operation, (3) Addressing Hydropower Sustainability

Optimization of Hydropower, and (4) Technology Advancement for Hydropower. The remaining categories of the Roadmap, Regulatory Process Optimization and Enhanced Collaboration, Education, and Outreach, will be addressed in the workshop as cross-cut issues to connect activities in the first three categories.

**Public Participation**

The event is open to the public based upon space availability. DOE will also accept public comments as described above for purposes of better understanding the hydropower industry and challenges associated with increased deployment. These comments may be submitted at [Aleksandra.Lemke@EE.DOE.Gov](mailto:Aleksandra.Lemke@EE.DOE.Gov).

Participants should limit information and comments to those based on personal experience, individual advice, information, or facts regarding this topic. It is not the object of this session to obtain any group position or consensus from the meeting participants.

Following the meeting, a summary will be compiled by DOE and posted for public comment. For those interested in providing additional public comment, the summary will be posted at [water.energy.gov](http://water.energy.gov).

Issued on March 30, 2017 in Washington, DC.

**AGENCY:** Office of Defense Programs, National Nuclear Security Administration, Department of Energy.

**ACTION:** Notice of renewal.

**SUMMARY:** Pursuant to the Federal Advisory Committee Act, and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Defense Programs Advisory Committee (DPAC) will be renewed for a two-year period beginning on February 10, 2017.

The DPAC will provide advice and recommendations to the Deputy Administrator for Defense Programs on

the stewardship and maintenance of the Nation's nuclear deterrent.

Additionally, the renewal of the Committee has been determined to be essential to the conduct of the Department's business and to be in the public interest in connection with the performance of duties imposed upon the Department of Energy by law and agreement. The Committee will continue to operate in accordance with the provisions of the Federal Advisory Committee Act and the rules and regulations in implementation of that Act.

### Federal Energy Regulatory Commission

[Docket No. CP16–10–000; Docket No. CP16–13–000]

#### Mountain Valley Pipeline LLC; Equitrans LP; Notice of Revised Schedule for Environmental Review of the Mountain Valley Project and the Equitrans Expansion Project

This notice identifies the Federal Energy Regulatory Commission staff's revised schedule for the completion of the environmental impact statement (EIS) for Mountain Valley Pipeline LLC's (Mountain Valley) Mountain Valley Project and Equitrans LP's (Equitrans) Equitrans Expansion Project. The first notice of schedule, issued on June 28, 2016, identified a final EIS date of March 10, 2017. However, in

response to comments on the draft EIS issued September 16, 2016 (with a comment closing date of December 22, 2016), staff produced several environmental information requests sent to Mountain Valley and Equitrans in January and March, 2017, and only recently received information necessary for us to complete our environmental review. As a result, staff has revised the schedule for issuance of the final EIS.

#### Schedule for Environmental Review

Issuance of Notice of Availability of the final EIS—June 23, 2017

90-day Federal Authorization Decision Deadline—September 21, 2017

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

#### Additional Information

In order to receive notification of the issuance of the final EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription (<http://www.ferc.gov/docs-filing/esubscription.asp>).
