SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.* The statute provides for the payment of benefits for wage loss and/or for permanent impairment to a scheduled member, arising out of a work related injury or disease. The Act outlines the elements of pay which are to be included in an individual's pay rate, and sets forth various other criteria for determining eligibility to and the amount of benefits, including: Augmentation of basic compensation for individuals with qualifying dependents; a requirement to report any earnings during a period that compensation is claimed; a prohibition against concurrent receipt of FECA benefits and benefits from OPM or certain VA benefits; a mandate that

money collected from a liable third party found responsible for the injury for which compensation has been paid is applied to benefits paid or payable. This information collection is currently approved for use through January 31, 2018. This ICR has been classified as a revision, because of a change to the CA-1332, which will include additional questions for the physician to respond to as whether a condition of tinnitus has been diagnosed, has impacted a claimant's daily living and whether such diagnosis is or isn't due to federal employment.

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * enhance the quality, utility and clarity of the information to be collected; and
