

52. The license amendment was found to be acceptable as well. The combined safety evaluation is available in ADAMS under Accession No. ML17039B058.

Identical exemption documents (except for referenced unit numbers and license numbers) were issued to the licensee for VCSNS Units 2 and 3 (COLs NPF-93 and NPF-94). The exemption documents for VCSNS Units 2 and 3 can be found in ADAMS under Accession Nos. ML17039B030 and ML17039B041, respectively. The exemption is reproduced (with the exception of abbreviated titles and additional citations) in Section II of this document. The amendment documents for COLs NPF-93 and NPF-94 are available in ADAMS under Accession Nos. ML17039B015 and ML17039B024, respectively. A summary of the amendment documents is provided in Section III of this document.

II. Exemption

Reproduced below is the exemption document issued to VCSNS Units 2 and Unit 3. It makes reference to the combined safety evaluation that provides the reasoning for the findings made by the NRC (and listed under Item 1) in order to grant the exemption:

1. In a letter dated September 2, 2016, the licensee requested from the Commission an exemption to allow departures from Tier 1 information in the certified DCD incorporated by reference in 10 CFR part 52, appendix D, as part of LAR 16-08, "ADS Stage 2, 3, and 4 Valve Flow Area Changes and Clarifications."

For the reasons set forth in Section 3.1 of the NRC staff's Safety Evaluation, which can be found in ADAMS under Accession No. ML17039B058, the Commission finds that:

A. The exemption is authorized by law;

B. the exemption presents no undue risk to public health and safety;

C. the exemption is consistent with the common defense and security;

D. special circumstances are present in that the application of the rule in this circumstance is not necessary to serve the underlying purpose of the rule;

E. the special circumstances outweigh any decrease in safety that may result from the reduction in standardization caused by the exemption; and

F. the exemption will not result in a significant decrease in the level of safety otherwise provided by the design.

2. Accordingly, the licensee is granted an exemption from the certified DCD Tier 1 information, with corresponding changes to Appendix C of the Facility Combined Licenses as described in the licensee's request dated September 2,

2016. This exemption is related to, and necessary for, the granting of License Amendment No. 64, which is being issued concurrently with this exemption.

3. As explained in Section 5.0 of the NRC staff's Safety Evaluation (ADAMS Accession No. ML17039B058), this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated September 2, 2016 (ADAMS Accession No. ML16246A214), the licensee requested that the NRC amend the COLs for VCSNS, Units 2 and 3, COLs NPF-93 and NPF-94. The proposed amendment is described in Section I of this **Federal Register** notice.

The Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or COL, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on December 20, 2016 (81 FR 92863). No comments were received during the 30-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that the licensee requested on September 2, 2016. The exemption and amendment were issued on March 17, 2017, as part of a combined package to the licensee (ADAMS Accession No. ML17039A995).

Dated at Rockville, Maryland, this 24th day of March 2017.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-80363; File No. SR-NYSEArca-2017-13]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Exchange's Schedule of Fees and Charges

April 3, 2017.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934

¹ 15 U.S.C. 78s(b)(1).

(“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on March 20, 2017, NYSE Arca, Inc. (“Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange’s “Schedule of Fees and Charges” to add new Commentary .6 relating to waiver of the Annual Fee for an issuer that transfers its listing of securities to the Exchange from another national securities exchange, effective March 20, 2017. The proposed rule change is available on the Exchange’s Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Exchange’s Schedule of Fees and Charges (“Schedule”) to add new Commentary .6 relating to waiver of the Annual Fee for an issuer that transfers the listing of its securities to the Exchange from another national securities exchange, effective March 20, 2017, as described below.

Currently, note 8 to the Schedule provides that issues are subject to Annual Fees in the year of listing, pro-rated based on days listed that calendar

year. Thus, if an issuer transfers its listing from another national securities exchange to the Exchange, the issuer is billed for a pro-rated amount of the Annual Fee in the year of listing.

The Exchange proposes to add Commentary [sic] .6 to the Schedule to provide that an issuer that transfers the listing of its securities from another national securities exchange would not be subject to the Annual Fee for the remainder of the calendar year following the date of listing on the Exchange.

The proposed waiver of the Annual Fee would apply as of March 20, 2017 and would not apply retroactively to transfers prior to such date.

The Exchange believes that waiver of the Annual Fees in the circumstances described above is appropriate because issuers incur substantial legal and administrative costs in connection with delisting from one exchange and listing on another. Waiver of Annual Fees during the time frame specified above would partially offset such transfer costs. In addition, the proposed waiver would apply to all issuers of securities that transfer listing to the Exchange. Therefore, the Exchange believes there would be no unfair discrimination against issuers of securities listed on the Exchange.

The Exchange notes that the market for listings is extremely competitive. Each listing exchange has a different fee schedule that applies to issuers seeking to list securities on its exchange. Issuers have the option to list their securities on these alternative venues based on the fees charged and the value provided by each listing. An issuer may have previously incurred listing and/or annual fees in connection with listing on another exchange. Therefore, such issuer may incur multiple listing and/or annual fees in the same year in connection with a listing transfer, which may operate as a disincentive to transferring to an exchange that the issuer determines is preferable based on the issuer’s assessment of the exchange’s services, value and market quality.

Notwithstanding the waiver of the Annual Fee, as described above, the Exchange will continue to be able to fund its regulatory obligations.

2. Statutory Basis

NYSE Arca believes that the proposal is consistent with Section 6(b)⁴ of the Act, in general, and Section 6(b)(4)⁵ of the Act in particular, in that it provides for the equitable allocation of reasonable

dues, fees and other charges among its issuers and other persons using its facilities. In addition, the Exchange believes the proposal is consistent with the requirement under Section 6(b)(5)⁶ that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest; and are not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposal represents an equitable allocation of fees and is not unfairly discriminatory because the proposed amendment would enable all issuers transferring from any other national securities exchange to benefit from the same waiver with respect to Annual Fees for a specified time period. The proposed waiver would apply to all issuers of securities that transfer listings to the Exchange. Therefore, the Exchange believes there would be no unfair discrimination against issuers of securities transferring listings to the Exchange.

In addition, the Exchange believes that the proposed waiver is not unfairly discriminatory with respect to issuers that are already listed on the Exchange because issuers transferring from other markets may already have paid listing and/or annual fees at their predecessor market and may incur multiple listing and/or annual fees in the same year in connection with a listing transfer, which may operate as a disincentive to transferring a listing to an exchange that the issuer determines is preferable based on the issuer’s assessment of an exchange’s services, value and market quality. Due to the very limited anticipated loss of revenue associated with the proposed waiver, the Exchange does not expect the proposed fee waiver to affect its ability to devote the same level of resources to its oversight of its listed issues that benefit from the waiver as it does for other issuers or, more generally, impact its resource commitment to its regulatory oversight of the listing process or its regulatory programs.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The proposed rule change is designed to enable all issuers of securities that transfer listing from any other national securities exchange to benefit from the same waiver with respect to Annual Fees for a specified time period. Issuers have the option to list their securities on alternative venues based on the fees charged and the value provided by such venue. Because issuers have a choice to list their securities on a different national securities exchange, the Exchange does not believe that the proposed fee change imposes a burden on competition. In addition, the waiver of Annual Fees as described herein would apply equally to all issuers.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)⁷ of the Act and subparagraph (f)(2) of Rule 19b-4⁸ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)⁹ of the Act to determine whether the proposed rule change should be approved or disapproved.
