

retirement, and death, and the medical records of these veterans, current members of the Armed Forces, and their dependents. We use the NA Form 13027, Court Order Requirements, to advise requesters of (1) the procedures they should follow to request certified copies of records for use in civil litigation or criminal actions in courts of law, and (2) the information they need to provide us so that we can identify the correct records.

2. *Title:* Forms Relating to Military Service Records.

OMB number: 3095–0039.

Agency form number: NA Forms 13036, 13042, 13055, 13075, and 13177.

Type of review: Regular.

Affected public: Veterans, military dependents, their authorized representatives, state and local governments, and businesses.

Estimated number of respondents: 132,500.

Estimated time per response: 5 minutes.

Frequency of response: On occasion (when respondent wishes to request information from a military personnel, military medical, or dependent medical record).

Estimated total annual burden hours: 11,042 hours.

Abstract: The information collection is prescribed by 36 CFR 1228.164. In accordance with rules issued by the Department of Defense and the Department of Transportation (U.S. Coast Guard), NARA's National Personnel Records Center (NPRC) administers military personnel and medical records of veterans after discharge, retirement, and death. In addition, NPRC administers the medical records of dependents of service personnel. When veterans, dependents, and other authorized individuals request information from, or copies of, documents in military personnel, military medical, and dependent medical records, they must provide on forms or in letters certain information about the veteran and the nature of the request so that we may find the correct records, protect the privacy of the person in the records from unauthorized access, and reconstruct information if needed. We ask requesters who seek medical records of dependents of service personnel and hospitalization records of military personnel to complete NA Form 13042, Request for Information Needed to Locate Medical Records, so that NPRC staff can locate the desired records. Certain types of information contained in military personnel and medical records are restricted from disclosure unless the

veteran provides a more specific release authorization than is normally required for other records. In such cases, we ask veterans to complete NA Form 13036, Authorization for Release of Military Medical Patient Records, to authorize release to a third party of a restricted type of information found in the desired record. A major fire at the NPRC on July 12, 1973, destroyed numerous military records. If a person's request involves records or information from records that may have been lost in the fire, we may ask them to complete NA Form 13075, Questionnaire about Military Service, or NA Form 13055, Request for Information Needed to Reconstruct Medical Data, so that NPRC staff can search alternative sources to reconstruct the requested information. Requesters may check the status of a request for clinical or medical treatment records through the online NA Form 13177, Check the Status of a Clinical & Medical & Treatment Records Request. We use the information entered here to identify and track the requests and provide status updates.

3. *Title:* Order Forms for Genealogical Research in the National Archives.

OMB number: 3095–0027.

Agency form numbers: NATF Forms 84, 85, and 86.

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 10,318.

Estimated time per response: 10 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 1,720.

Abstract: We use these National Archives Trust Fund (NATF) forms to process requests for certain types of genealogical research documents. We need to handle requests for these types of records by order due to the volume of requests we receive for them; otherwise, we would not be able to handle them in a timely way. The forms also allow us to collect specific information from the researcher that we need to search for the records they want. The forms are: NATF 84, National Archives Order for Copies of Land Entry Files; NATF 85, National Archives Order for Copies of Pension or Bounty Land Warrant Applications; and NATF 86, National Archives Order for Copies of Military Service Records. As a convenience, the paper forms allow researchers to provide credit card information to authorize billing and expedited mailing of the copies. Researchers can instead use Order Online! (<http://www.archives.gov/>

[research_room/obtain_copies/military_and_genealogy_order_forms.html](#)) to complete the forms and order the copies.

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Written comments on this notice must be received by May 8, 2017 to be

assured of consideration. Comments received after that date will be considered to the extent practicable.

Comments: Comments are invited on (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

For Additional Information or Comments: Comments should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Copies of the submission(s) may be obtained by calling 703-292-7556. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

It is not permissible for NSF to conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title: Survey of Earned Doctorates.

OMB Control Number: 3145-0019.

Summary of Collection: The authority to collect information for the Survey of Earned Doctorates (SED) is established under the National Science Foundation Act of 1950, as amended, Public Law 507 (42 U.S.C. 1862), Section 3(a)(6), which directs the NSF “. . . to provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formation by other agencies of the federal

government.” More recently, the National Center for Science and Engineering Statistics (NCSES) was established within NSF by Section 505 of the America COMPETES Reauthorization Act of 2010 and given a broader mandate to collect data related to STEM education, the science and engineering workforce, and U.S. competitiveness in science, engineering, technology, and Research and Development. The SED is part of an integrated survey system that fulfills the education and workforce components of this mission.

The SED has been conducted annually since 1958 and is jointly sponsored by four Federal agencies (NSF, National Institutes of Health, U.S. Department of Education, and National Endowment for the Humanities) to avoid duplication of effort in collecting such data. It is an accurate, timely source of information on an important national resource—individuals with research doctorates. Data are obtained via Web survey or paper questionnaire from each person earning a research doctorate at the time they receive the degree. Graduate schools help distribute the SED to their graduating doctorate recipients. Data are collected on the doctorate recipient's field of specialty, educational background, sources of financial support in graduate school, debt level, postgraduation plans for employment, and demographic characteristics.

The survey will be collected in conformance with the National Science Foundation Act of 1950, as amended, and the Privacy Act of 1974. Responses from individuals are voluntary. NSF will ensure that all individually identifiable information collected will be kept strictly confidential and will be used for research or statistical purposes, analyzing data, and preparing scientific reports and articles.

Comment: On 16 September 2016 we published in the **Federal Register** (81 FR 63809) a 60-day notice of our intent to request reinstatement of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending November 14, 2016. Two comments were received from the public, one of which requested draft materials from the SED information collection request being prepared for OMB and one that expressed support for renewing the SED.

Need and Use of the Information: The Federal government, universities, researchers, and others use the information extensively. NSF, as the lead agency, publishes statistics from the survey in several reports, but
