Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Mental Health Block Grant Ten Percent Set Aside Evaluation of First Episode Psychosis—NEW

The Substance Abuse and Mental Health Services Administration

(SAMHSA) is directed by Congress through its FY 2016 Omnibus bill, Public Law 114-113, to set aside ten percent of the Mental Health Block Grant (MHBG) allocation for each state to support evidence-based programs that provide treatment for those with early serious mental illness (SMI) and a first episode psychosis (FEP)—an increase from the previous five percent set aside.

The purpose of this 3-year evaluation is to assess the relationship between fidelity of selected coordinated specialty care (CSC) programs supported with Mental Health Block Grant (MHBG) Ten Percent Set Aside funding and participant outcomes. There are approximately 250 sites implementing CSC programs with MHBG ten percent set aside funding. All 250 sites will be asked to report on their implementation through an online survey. Up to 32 CSC sites across the nation will be recruited to participate in a process and outcome evaluation. The data collection activities for the Mental Health Block Grant Ten Percent Set Aside Evaluation will include the following six data collection tools:

- *Site Survey:* This is a one-time online survey with site directors of all 250 centers using MHBG ten percent set aside funding (not just those included in the evaluation). The survey focuses on how centers across the U.S. are providing services to individuals with First Episode Psychosis (FEP) in their communities.

- *State Mental Health Authority Interview:* This is a one-time semi-structured interview with state mental health leadership in the states where the 32 sites in the evaluation are located. The interview focuses on their thoughts and opinions about context in which

CSC programs are implemented within their state and the state's role in the implementation of the CSC programs.

- *Agency Director/Administrator Interview:* This semi-structured interview will be conducted twice with Agency Director/Administrators at each of the 32 CSC sites in the evaluation about the successes and challenges involved in implementing the CSC program.

- *Coordinated Specialty Care (CSC) Staff Interview:* This semi-structured interview will be conducted twice with CSC Staff at each of the 32 CSC sites in the evaluation about the successes and challenges involved in implementing the CSC program.

- *Coordinated Specialty Care (CSC) Participant Interview:* This semi-structured interview will be conducted twice with participants involved in programs at the 32 CSC sites in the evaluation. The purpose of the interview is to gather participant input on how CSC programs are operating and their thoughts and opinions about successes and challenges while participating in the CSC program.

- *Fidelity Interview:* This interview will be conducted twice during the evaluation with up to four CSC staff at each site. The phone interview is designed to be used in conjunction with the First Episode Psychosis Fidelity Scale (FEPS-FS) to examine whether elements of CSC are implemented at the sites.

In addition, each site will provide the evaluation team with administrative data on participant demographics and outcomes (e.g., employment status, educational status, diagnosis, living situation, quality of life, symptoms).

TABLE 1—ESTIMATED BURDEN HOURS

Respondent	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden (in hours)
State Department of Mental Health Representative: Telephone Interview	32	1	32	2.0	64
CSC Site Directors across the country: Online survey	250	1	250	0.2	50
Evaluation CSC Site: Program Director on-site interview ...	64	1	64	2.0	128
Evaluation CSC Site: Program Staff on-site interview	192	1	192	2.0	384
Evaluation CSC Site: Program Staff Fidelity Telephone Interview	64	4	256	4.0	1,024
Evaluation CSC Site: Program Staff data submission	32	18	576	5.0	2,880
Evaluation CSC Site: Program Participant on-site interview	128	1	128	1.0	128
Total	762	1,498	4,658

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2010-1066]

Recreational Boating Safety Projects, Programs, and Activities Funded Under Provisions of the Transportation Equity Act for the 21st Century; Fiscal Year 2016

ACTION: Notice.

SUMMARY: The Coast Guard is publishing this notice to satisfy a requirement of the Transportation Equity Act for the 21st Century that a detailed accounting of the projects, programs, and activities funded under the national recreational boating safety program provision of the Act be published annually in the **Federal Register**. This notice specifies the funding amounts the Coast Guard has committed, obligated, or expended during fiscal year 2016, as of September 30, 2016.

In 1999, the Transportation Equity Act for the 21st Century made \$5 million per year available for the payment of Coast Guard expenses for personnel and activities directly related to coordinating and carrying out the national recreational boating safety program. In 2005, the law was amended, and the amount was increased to \$5.5 million. In 2015, the law was amended again which resulted in the consolidation of the \$5.5 million and the two percent amount made available under 46 U.S.C. Chapter 131, Section 13107(2). For Fiscal Year 2016 the amount allocated to the Coast Guard under Public Law 114-94, Section 10001(2) was \$7.7 million.

FOR FURTHER INFORMATION CONTACT: For questions on this notice, call Jeff Ludwig, Regulations Development Manager, telephone 202-372-1061.

SUPPLEMENTARY INFORMATION:

Background and Purpose

The Transportation Equity Act for the 21st Century became law on June 9, 1998 (Pub. L. 105-178; 112 Stat. 107).

The Act required that of the \$5 million made available to carry out the national recreational boating safety program each year, \$2 million shall be available only to ensure compliance with Chapter 43 of Title 46, U.S. Code. On September 29, 2005, the Sportfishing and Recreational Boating Safety Amendments Act of 2005 was enacted (Pub. L. 109-74; 119 Stat. 2031). This Act increased the funds available to the national recreational boating safety program from \$5 million to \$5.5 million annually, and stated that “not less than” \$2 million shall be available only to ensure compliance with Chapter 43 of Title 46, U.S. Code. Subsequently on December 04, 2015 the law was once again amended (Pub. L. 114-94; Section 10001). This amendment consolidated the \$5.5 million and the two percent amount made available under 46 U.S.C. Chapter 131, Section 13107(2). For Fiscal Year 2016 the amount allocated to the Coast Guard under Public Law 114-94, Section 10001(2) was \$7.7 million. Of the \$7.7 million made available “not less than” \$2.1 million shall be available to ensure compliance with Chapter 43 of Title 46, U.S. Code and “not more” than \$1.5 million is available to conduct by grant or contract a survey of levels of recreational boating participation and related matters in the United States.

These funds are available to the Secretary from the Sport Fish Restoration and Boating Trust Fund established under 26 U.S.C. 9504(a) for payment of Coast Guard expenses for personnel and activities directly related to coordinating and carrying out the national recreational boating safety program. Under 46 U.S.C. 13107(c), on and after October 1, 2016 no funds available to the Secretary under this subsection may be used to replace funding provided through general appropriations, nor for any purposes except those purposes authorized; namely, for personnel and activities directly related to coordinating and carrying out the national recreational boating safety program. Amounts made available under 46 U.S.C. 13107(c) remain available during the two succeeding fiscal years. Any amount that is unexpended or unobligated at the end of the 3-year period during which it is available, shall be withdrawn by the Secretary and allocated to the States in addition to any other amounts available for allocation in the fiscal year in which they are withdrawn or the following fiscal year.

Use of these funds requires compliance with standard Federal contracting rules with associated lead and processing times resulting in a lag

time between available funds and spending. The total amount of funding transferred to the Coast Guard from the Sport Fish Restoration and Boating Trust Fund and committed, obligated, and/or expended during fiscal year 2016 for each activity is shown below.

Specific Accounting of Funds

Manufacturer Compliance Inspection Program/Boat Testing Program: Funding was provided to continue the national recreational boat compliance inspection program, initiated in January 2001. During the Fiscal Year contracted personnel, acting on behalf of the Coast Guard, visit recreational boat manufacturers, recreational boat retailers, and recreational boat shows to inspect boats for compliance with the Federal regulations. During the 2015-2016 reporting year, inspectors performed 391 factory visits, 220 retailer visits, and 8 boat show visits resulting in 2,777 boats being inspected with findings of 883 non-compliances. (\$2,123,490). Additional expenditures regarding this subject that are accounted for in the funding amounts listed below are Contract Personnel Support (\$106,000), Reimbursable Salaries (\$194,586) and New Recreational Boating Safety Associated Travel (\$5,976). Collectively, these expenditures, along with other potential projects, are considered to be applicable to the legal requirement that “not less than” \$2.1 million be available to ensure compliance with Chapter 43 of Title 46, U.S. Code.

Administrative Overhead—Funding was provided to pay for Boating Safety Division office supplies. (\$6,027).

Boating Accident Report Database (BARD) Web System: Funding was allocated to continue providing the BARD Web System, which enables reporting authorities in the 50 States, five U.S. Territories, and the District of Columbia to submit their accident reports electronically over a secure Internet connection. The system also enables the user community to generate statistical reports that show the frequency, nature, and severity of boating accidents. Funds supported system maintenance, development, and technical (hotline) support. (\$237,997).

Contract Personnel Support: Funding was provided for contract personnel to support the appropriate cost/benefit analyses for potential new regulations and to conduct general boating safety-related research and analysis and to assist the manufacturer compliance program. (\$616,207).

Boating Accident News Clipping Services: Funding was provided to continue to gather daily news stories of
