

as set forth in the Notice of Availability. 76 FR 51357, 51358. This application form is necessary in order for DOE to identify if applicants meet basic requirements for use of the AFS and implement this important nonproliferation initiative; (5) Annual Estimated Number of Respondents: 10; (6) Annual Estimated Number of Total Responses: 10; (7) Annual Estimated Number of Burden Hours: 8; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$1,800.

Statutory Authority: The Secretary of Energy is authorized pursuant to the Atomic Energy Act of 1954, as amended (Pub. L. 83–703), and the Nuclear Non-Proliferation Act of 1978 (NNPA) (Pub. L. 95–242) to encourage the widespread use of atomic energy for peaceful purposes, and to cooperate with other nations by distributing nuclear material where appropriate safeguards measures are in place to ensure the material is properly controlled and used for peaceful purposes. In 2005, DOE set aside a portion of its LEU inventory to be used to support the International Atomic Energy Agency's (IAEA) International Nuclear Fuel Bank (INFB) initiative, which is envisioned as an LEU reserve that will be administered by the IAEA and that will serve as a back-up for global supply disruptions. Congress later appropriated \$49,540,000 in the Consolidated Appropriations Act, 2008 (Pub. L. 110–161) to fund a portion of the INFB. Congress, in the Explanatory Statement accompanying the House Appropriations Committee Print (which in the Act was given the same effect as a joint explanatory statement), noted that the INFB freed up DOE's LEU set-aside, and recommended DOE also “allow U.S. interests to purchase uranium fuel from the Reliable Fuel Supply [now the AFS] in the event of supply disruption.” (H. Approp. Cmte. Print at 592.)

The sale of LEU from the AFS will be conducted consistent with applicable law, the policies and guidance in the “Secretary of Energy’s 2008 Policy Statement of Management of the Department of Energy’s Excess Uranium Inventory” (March 11, 2008), and the DOE Excess Uranium Inventory Management Plan.

Issued in Washington, DC on March 31, 2017.

David Huizenga,

Acting Deputy Administrator, Defense Nuclear Nonproliferation, National Nuclear Security Administration.

BILLING CODE 6450-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP17-101-000; PF16-5-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Application

Take notice that on March 27, 2017, Transcontinental Gas Pipe Line Company, LLC (Transco), P.O. Box 1396, Houston, Texas 77251, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) for its proposed Northeast Supply Enhancement Project. Specifically, Transco proposes to: (i) Construct a 10.17-mile, 42-inch-diameter loop in Lancaster County, Pennsylvania; (ii) construct a 3.43-mile, 26-inch-diameter loop in Middlesex County, New Jersey; (iii) construct a 23.49-mile, 26-inch-diameter loop in Middlesex County, New Jersey and in New York State waters; (iv) add 21,902 horsepower (hp) at its existing Compressor Station 200 in Chester County, Pennsylvania; (v) construct a new 32,000 hp compressor station (Compressor Station 206) in Somerset County, New Jersey; and (vi) construct various additional facilities. Transco states that the Northeast Supply Enhancement Project will provide 400,000 dekatherms per day of firm transportation service. Transco estimates the cost of the project to be approximately \$926.5 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TYY, (202) 502–8659.

Any questions concerning this application may be directed to Bill Hammons, Transcontinental Gas Pipe Line Company, LLC, P.O. Box 1396, Houston, Texas 77251, by telephone at (713) 215–2130.

On May 18, 2016, Commission staff granted Transco’s request to utilize the Pre-Filing Process and assigned Docket No. PF16-5-000 to staff activities involved in the Northeast Supply Enhancement Project. Now, as of the March 27, 2017 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding

will be conducted in Docket No. CP17-101-000, as noted in the caption of the Notice.

Pursuant to section 157.9 of the Commission’s rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) for this proposal. The issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this

project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on April 27, 2017.

Dated: April 6, 2017.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2660-028]

Woodland Pulp LLC; Notice of Application Accepted for Filing, Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Type of Application:* Surrender of License.

b. *Project No.:* 2660-028.

c. *Date Filed:* December 23, 2016.

d. *Applicant:* Woodland Pulp LLC.

e. *Name of Project:* Forest City Project.

f. *Location:* On the East Branch of the St. Croix River in Washington and Aroostook Counties, Maine.

g. *Filed Pursuant to:* 18 CFR 6.1.

h. *Applicant Contact:* Mr. Scott Beal, Woodland Pulp LLC, 144 Main Street, Baileyville, ME 04694, Tel: 207-427-4004.

i. *FERC Contact:* Mr. M. Joseph Fayyad, (202) 502-8759, Mo.Fayyad@ferc.gov.

j. Deadline for filing comments, motions to intervene and protests, is 30 days from the issuance date of this notice. The Commission strongly encourages electronic filing. Please file motions to intervene, protests, comments, and recommendations, using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-2660-028.

k. *Description of Project Facilities:*

The Forest City Project is located at river mile 58 of the East Branch of the St. Croix River on the international boundary between the United States and Canada. The existing project as licensed includes only the lands, waters, and structures that are located in the United States, which consist of: (a) A 147-foot-long section of the 540-foot-long, 12-foot-high earth Forest City Dam that includes: (i) A 110-foot-long west earth embankment, and (ii) a 37-foot-long section of the timber-crib spillway section with two 8.3-foot-wide, 10-foot-high spillway gates on the west side of the spillway, which control the impoundment between a minimum elevation of 427.94 feet mean sea level (msl) and a maximum elevation of 434.94 feet msl; (b) a 9,141-acre portion of the 17,040-acre multi-lake impoundment (North Lake and East Grand Lake); and (c) appurtenant facilities. The project does not occupy federal lands and there are no generating facilities located at the project.

l. *Description of Request:* The licensee proposes to surrender the license for the Forest City Project due to economic considerations. As part of its surrender, the licensee plans to remove the two 8.3-foot-wide, 10-foot-high gates on the west side of the spillway. The licensee states that by removing the gates, water flow will return to natural flow conditions and the Forest City Dam will no longer act as the water control structure for East Grand Lake or use,

obstruct, or divert international boundary waters. The licensee states that the removal of the gates will lower the water elevation at the dam to 427.94 feet msl, but the minimum elevation will be 428.69 msl because of a natural obstruction upstream of the dam.

m. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Responsive Documents:* Any filing must (1) Bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All
