Electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202–586–8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On June 12, 2012, DOE issued Order No. EA–384 to NRGPMI, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on June 12, 2017. On March 21, 2017, NRGPMI filed an application with DOE for renewal of the export authority contained in Order No. EA–384 for an additional five-year term. In its application, NRGPMI states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that NRGPMI proposes to export to Mexico would be purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by NRGPMI have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning NRGPMI’s application to export electric power to Mexico should be clearly marked with OEDocket No. EA–384–A. An additional copy is to be provided directly to both Mr. Brian Lally, Assistant General Counsel for Technology and Intellectual Property, DEPARTMENT OF ENERGY, 1000 Independence Avenue SW., Washington, DC 20585–0350, and Ada Sarwar, NRG Energy, Inc., 804 Carnegie Center, Princeton, NJ 08540, and by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202–586–8008.

DEPARTMENT OF ENERGY
Proposed Subsequent Arrangement
AGENCY: Office of Nonproliferation and Arms Control, Department of Energy.
ACTION: Proposed subsequent arrangement.
SUMMARY: This document is being issued under the authority of section 131a. of the Atomic Energy Act of 1954, as amended. The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation Concerning Civil Uses of Atomic Energy between the Government of the United States and the Government of Canada.
DATES: This subsequent arrangement will take effect no sooner than April 27, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Goorevich, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, Department of Energy. Telephone: 202–586–0589 or email: Richard.Goorevich@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This subsequent arrangement concerns the alteration in form or content of 5 kg of U.S.-origin low enriched uranium (LEU) metal, 987.5 g of which is in the isotope of U–235 (19.75 percent enrichment) and which was exported to Canadian Nuclear Laboratories (CNL) among 100,095 kg of LEU containing 19.776 kg of U–235. The LEU was exported for the LEU National Research Universal (NRU) Driver Fuel supply and will now be used for a Plate-Type Proof of Principle
