II. Introduction

Pursuant to part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), on May 12, 2016, TVA submitted an application for an ESP for the Clinch River Nuclear (CRN) Site, located on approximately 1,200 acres in Roane County, Tennessee, along the Clinch River, approximately 25 miles west-southwest of downtown Knoxville, Tennessee.

III. Further Information

A notice of receipt and availability of the application, including the environmental report (ER), was published in the **Federal Register** on June 23, 2016 (81 FR 40929). A notice of acceptance for docketing of the

application for the ESP was published in the **Federal Register** on January 12, 2017 (82 FR 3812). A notice of hearing and opportunity to petition for leave to intervene in the proceeding on the application was published in the **Federal Register** on April 4, 2017, (82 FR 16436).

The purposes of this notice are to inform the public that the NRC staff will be preparing an environmental impact statement as part of the review of the application for the ESP and to provide the public with an opportunity to participate in the environmental scoping process as defined in 10 CFR 51.29.

In addition, as outlined in 36 CFR 800.8(c), “Coordination with the National Environmental Policy Act,” the NRC staff plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA). Pursuant to 36 CFR 800.8(c), the NRC staff intends to use the process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth on 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.45 and 51.50, TVA submitted the environmental ER as part of the application; the ER is available in ADAMS under Accession No. ML16144A145. The application may also be viewed on the NRC’s public Web site at <https://www.nrc.gov/reactors/new-reactors/esp/clinck-river.html>. In addition, the Oak Ridge Public Library,

1401 Oak Ridge Turnpike, Oak Ridge, Tennessee, and the Kingston Public Library, 1004 Bradford Way, Kingston, Tennessee, have agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS as part of the review of the application for the ESP at the CRN Site. Possible alternatives to the proposed action (issuance of the ESP for the CRN Site) include no action and alternate sites. As set forth in 10 CFR 51.20(b)(1), issuance of an ESP under 10 CFR part 52 is an action that requires an EIS. This notice is being published in accordance with NEPA and the NRC’s regulations in 10 CFR part 51.

The NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal Government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

- a. Define the proposed action that is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to but are not part of the scope of the EIS being considered;
- e. Identify other ER and consultation requirements related to the proposed action;

f. Identify parties consulting with the NRC under the NHPA, as set forth in 36 CFR 800.8(c)(1)(i);

g. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission’s tentative planning and decision-making schedule;

h. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and

i. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

- a. The applicant, TVA;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- d. Any affected Indian Tribe;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who intends to petition for leave to intervene in the proceeding, or who has submitted such a petition, who is admitted as a party.

IV. Public Scoping Meeting

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC will hold two identical public scoping meetings for the EIS regarding the TVA ESP application.

The scoping meetings will be held at Pollard Technology Conference Center Auditorium, 210 Badger Avenue, Oak Ridge, Tennessee on May 15, 2017. The meeting will convene at 2:00 p.m. and will continue until approximately 4:00 p.m. The second meeting will convene at 7:00 p.m., with a repetition of the overview portions of the first meeting, and will continue until approximately 9:00 p.m. The meetings will be transcribed and will include the following:

(1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the EIS, and the proposed review schedule; and

(2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the EIS. Additionally, the NRC staff will host informal discussions for 1 hour prior to the start of each public meeting. No formal comments on the proposed scope of the EIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Ms. Patricia Vokoun by telephone at 1–800–368–5642, extension 3470, or by email to the NRC at ClinchRiverESPEIS@nrc.gov (no formal comments will be accepted through this email address) no later than May 7, 2017. Members of the public may also register to speak at the meeting prior to the start of the session. Individual oral comments may be

limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the EIS. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Ms. Vokoun’s attention no later than May 1, 2017, so that the NRC staff can determine whether the request can be accommodated. Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address and will make this summary publicly available. The NRC staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate **Federal Register** notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the address in Section I.A. of this notice and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Dated at Rockville, Maryland, this 7th day of April, 2017.

For the Nuclear Regulatory Commission,
Francis M. Akstulewicz,
Director, Division of New Reactor Licensing,
Office of New Reactors.
