SUPPLEMENTARY INFORMATION: OMB Control Number: 1010–0081.

Title: 30 CFR 582. Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulphur.

Abstract: The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 43 U.S.C. 1337[k][1]) authorizes the Secretary of the Interior to issue regulations to grant to qualified persons, offering the highest cash bonus on a basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur in any area of the outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

Regulations at 30 CFR part 582 carry out these statutory requirements by
governing mining operations within the OCS for minerals other than oil, gas, and sulphur and establishing a comprehensive regulatory program for such minerals. There has been no competitive leasing activity in the OCS for minerals other than oil, gas, and sulphur for many years, and so BOEM has not generally collected information under this Part of its regulations. However, since these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

We will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulphur. BOEM will also use the information to ensure that such operations are conducted in a manner that will result in orderly resource recovery, development, and the protection of the human, marine, and coastal environments and for technical and environmental evaluations which provide a basis for BOEM to make informed decisions to approve, disapprove, or require modification of the proposed activities.

We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and the Department’s implementing regulations (43 CFR part 2), 30 CFR 582.5 and 582.6, and applicable sections of 30 CFR parts 580 and 581. No items of a sensitive nature are collected. Responses are mandatory.

**Frequency:** Monthly; quarterly; on occasion.

**Estimated Number and Description of Respondents:** As there are no active respondents, we estimated the potential annual number of respondents to be one. Potential respondents are OCS lessees.

**Estimated Reporting and Recordkeeping Hour Burden:** We expect the burden estimate for the renewal will be 212 hours. The following table details the individual BOEM components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping “Non-Hour Cost”

Burden: There are no non-hour cost burdens associated with this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”.

Agencies must specifically solicit comments on: (a) Whether or not the collection of information is necessary, including whether or not the information will have practical utility; (b) the accuracy of the burden estimates; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden on respondents.

Agencies must also estimate the non-hour cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total non-hour cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total non-hour cost burdens to respondents.

In our submission to OMB, we will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Availability of Comments: Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold such information, which we will honor to the extent allowable by law. If you wish us to withhold this information, you must state this prominently at the beginning.
of your comment. However, we will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The authorities for this action are the OCS Lands Act, as amended (43 U.S.C. 1334 and 43 U.S.C. 1337(k)(1)), and the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et. seq.).

Deanna Meyer-Pietruszka,
Chief, Office of Policy, Regulations, and Analysis.

FOR FURTHER INFORMATION CONTACT:
Anna Atkinson, Office of Policy, Regulations, and Analysis at (703) 787–1025 to request a copy of the ICR.

SUPPLEMENTARY INFORMATION:

Abstract: The Outer Continental Shelf (OCS) Lands Act (Act), as amended (43 U.S.C. 1334 and 43 U.S.C. 1337(k)), authorizes the Secretary of the Interior (Secretary) to administer the provisions relating to the leasing of the OCS, and to prescribe such rules and regulations as may be necessary to carry out such provisions. Additionally, the Act authorizes the Secretary to implement regulations to grant to qualified persons, offering the highest cash bonuses on the basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur. This applies to any area of the OCS not then under lease for such mineral upon royalty, rental, and other terms and conditions that the Secretary prescribe at the time of the lease offer. The Secretary is to administer the leasing provisions of the Act and prescribe the rules and regulations necessary to carry out those provisions.

Regulations at 30 CFR part 581 implement these statutory requirements. There has been no leasing activity in the OCS for minerals other than oil, gas, or sulphur under these regulations for many years, and so BOEM has not generally collected information under this Part of its regulations; however, because these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

BOEM will use the information required by 30 CFR part 581 to determine if statutory requirements are met prior to the issuance of a lease. Specifically, BOEM will use the information to:

- Evaluate the area and minerals requested by the lessee to assess the viability of offering leases for sale;
- Request the state(s) to initiate the establishment of a joint group to assess the proposed action;
- Ensure excessive overriding royalty interests are not created that would put economic constraints on all parties involved;
- Document that a leasehold or geographical subdivision has been surrendered by the record title holder; and
- Determine if activities on the proposed lease area(s) will have a significant impact on the environment.

We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior’s implementing regulations (43 CFR part 2), and 30 CFR 581.7. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion.

Description of Respondents: As there are no active respondents, we estimate the potential annual number of respondents to be one. Potential respondents are OCS lease requestors, state governments, and OCS lessees.

Estimated Reporting and Recordkeeping Hour Burden: We expect the annual reporting burden for this renewal to be 984 hours, which reflects a decrease of 280 hour burdens.

The following table details the individual components and respective hour burden estimates of this ICR. We assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

In calculating burdens, responses to requests for information and interest or proposed notices of sale pursuant to 30 CFR 581.12 and 581.16 do not constitute information collection under 5 CFR 1320.3(h)(4). These inquiries are general solicitations of public comment, so BOEM has removed the burden hours associated with them reflecting a decrease of 280 hour burdens.
