Title of the Collection: 2018-2019 Free Application for Federal Student Aid.

OMB Control Number: 1845-0001.

Type of Review: A revision of an existing information collection.

Abstract: Section 483, of the Higher Education Act of 1965, as amended (HEA), mandates that the Secretary of Education “. . . shall produce, distribute, and process free of charge common financial reporting forms as described in this subsection to be used for application and reapplication to determine the need and eligibility of a student for financial assistance . . .”.

The determination of need and eligibility are for the following Title IV, HEA, federal student financial assistance programs: The Federal Pell Grant Program; the Campus-Based programs (Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), and the Federal Perkins Loan Program); the William D. Ford Federal Direct Loan Program; the Teacher Education Assistance for College and Higher Education (TEACH) Grant; and the Iraq and Afghanistan Service Grant.

Federal Student Aid (FSA), an office of the U.S. Department of Education, subsequently developed an application process to collect and process the data necessary to determine a student's eligibility to receive Title IV, HEA program assistance. The application process involves an applicant's submission of the *Free Application for Federal Student Aid* (FAFSA®). After submission and processing of the FAFSA, an applicant receives a *Student Aid Report* (SAR), which is a summary of the processed data they submitted on the FAFSA. The applicant reviews the SAR, and, if necessary, will make corrections or updates to their submitted FAFSA data. Institutions of higher education listed by the applicant on the FAFSA also receive a summary of processed data submitted on the FAFSA which is called the Institutional Student Information Record (ISIR).

ED and FSA seek OMB approval of all application components as a single “collection of information”. The aggregate burden will be accounted for under OMB Control Number 1845-0001. The specific application components, descriptions, and submission methods for each are listed in Table 1.
