

period. Thus, the parties have worked to preserve an adequate cushion against market downturns.

Risk of loss. The record shows that the Plan presents a low risk of loss to PBGC's multiemployer insurance program. The Plan and the covered industry have unique characteristics that suggest that the Plan's contribution base is likely to remain stable. Contributions to the Plan are made with respect to commercial buildings in the greater Cleveland area. Plan representatives presented data demonstrating that building cleaning contracts for covered employment under the collective bargaining agreement have changed hands approximately 20–25 times during the past 18 years, and the rate at which a new signatory employer has assumed a prior signatory employer's building contract and has hired the prior employer's employees to clean the same building is 90–92%. Accordingly, the data substantiates the Plan's assertion that the contribution base is secure and the departure of one employer from the Plan is not likely to have an adverse effect on the contribution base so long as the number of buildings covered does not decline.

Conclusion

Based on the Plan's submissions and the representations and statements made in connection with the request for approval, PBGC has determined that the plan amendment adopting the special withdrawal liability rules (1) will apply only to an industry that has characteristics that would make the use of special withdrawal liability rules appropriate, and (2) will not pose a significant risk to the insurance system. Therefore, PBGC hereby grants the Plan's request for approval of a plan amendment providing special withdrawal liability rules, as set forth herein. Should the Plan wish to amend these rules at any time, PBGC approval of the amendment will be required.
