Total Annual Burden: 22,559 hours.

Total Annual Cost: \$1,130,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Part 68 rules do not require respondents to provide proprietary, trade secret or other confidential information to the Commission. If the FCC requests that respondents submit information which respondents believe is confidential, respondents may request confidential treatment of such information pursuant to Section 0.459 of the FCC's rules, 47 CFR 0.459.

Needs and Uses: The purpose of 47 CFR part 68 is to protect the telephone network from certain types of harm and prevent interference to subscribers. To (1) demonstrate that terminal equipment complies with criteria for protecting the network and (2) ensure that consumers, providers of telecommunications, the Commission and others are able to trace products to the party responsible for ensuring compliance with these criteria; it is essential to require manufacturers or other responsible parties to provide the information required by Part 68. In

addition, incumbent local exchange carriers must provide the information in Part 68 to warn their subscribers of impending disconnection of service when subscriber terminal equipment is causing telephone network harm, and to inform subscribers of a change in network facilities that requires modification or alteration of subscribers' terminal equipment.

OMB Control Number: 3060-0823.

Title: Part 64, Pay Telephone Reclassification.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Total Annual Cost: \$740,000.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Confidentiality concerns are not relevant to these types of disclosures. The Commission is not requesting carriers or providers to submit confidential information to the Commission. If the Commission requests that carriers or providers submit information which they believe is confidential, the carriers or providers may request confidential treatment of their information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission established a plan to ensure that payphone service providers (PSPs) were compensated for certain non-coin calls originated from their payphones. As part of this plan, the Commission required that by October 7, 1997, local exchange carriers were to provide payphone-specific coding digits to PSPs, and that PSPs were to provide those digits from their payphones to interexchange carriers. The provision of payphone-specific coding digits was a prerequisite to payphone per-call compensation payments by IXCs to PSPs for subscriber 800 and access code calls. The Commission's Wireline Competition Bureau subsequently provided a waiver until March 9, 1998, for those payphones for which the

necessary coding digits were not provided to identify calls. The Bureau also on that date clarified the requirements established in the Payphone Orders for the provision of payphone-specific coding digits and for tariffs that LECs must file pursuant to the Payphone Orders.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Respondents: Businesses or other for-profit.

Number of Respondents and Responses: 968 respondents; 225,968 responses.

Estimated Time per Response: 0.01258143 hour (range of 30 seconds for labeling each handset to one hour for each respondent's public education effort).

Frequency of Response: Third-party disclosure requirement.

Obligation To Respond: Mandatory. Statutory authority for this collection of information is contained in 47 U.S.C. Sections 154, 160, 201, 251-254, 303, and 332.

Total Annual Burden: 2,843 hours.

from non-service initialized wireless mobile handsets. Non-service-initialized wireless mobile handsets (non-initialized handsets) are not registered for service with any Commercial Mobile Radio Service (CMRS) licensee. A non-initialized handset lacks a dialable number, but is programmed to make outgoing 911 calls. The Commission addressed issues arising from the inability of a PSAP operator to call back a 911 caller who becomes disconnected when using a non-service-initialized wireless handset. These requirements also apply to manufacturers of 911-only handsets that are manufactured after May 3, 2004.
