SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify Class E airspace extending upward from 700 feet above the surface area at Perry Lefors Field, Pampa, TX and Gaines County Airport, Seminole, TX.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in

developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2017-0185/Airspace Docket No. 17-ASW-6." The postcard will be date/time stamped and returned to the commenter.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Perry Lefors Field, Pampa, TX. Specifically, this action would remove the segment 3 miles each side of the 354° bearing from the Pampa NDB extending from the 7.3-mile radius to 10.1 miles north of the airport and would reduce the Class E airspace extending upward from 700 feet above the surface at the airport from a 7.3-mile radius to a 6.4-mile radius. This action also proposes to modify Class E airspace extending upward from 700 feet above the surface at Gaines County Airport, Seminole, TX by removing the segment 2.5 miles each side of the 189° bearing from the Gaines CO NDB extending from the 6.7-mile radius to 7.7 miles south of the airport. Airspace reconfiguration is necessary due to the decommissioning of non-directional radio beacons (NDB), cancellation of NDB approaches, and implementation of area navigation (RNAV) procedures at the above airports. Controlled airspace is necessary for the safety and management of the standard instrument approach procedures for IFR operations at the airports.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

[Docket No. USCG–2017–0212]

RIN 1625–AA09

Drawbridge Operation Regulation; St. Louis River (Duluth-Superior Harbor), Between the Towns of Duluth, MN and Superior, WI

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to modify the regulations that govern the drawbridges over the St. Louis River at Duluth-Superior Harbor. This waterway borders Minnesota and Wisconsin and is listed under Minnesota as St. Louis River (Duluth-Superior Harbor) and under Wisconsin as Duluth-Superior Harbor (St. Louis River) in the CFR. This proposed rule would affect both regulations. The owner of the Burlington Northern Grassy Point Railroad Bridge at mile 5.44 requested the regulation be updated to include permanent winter operating schedule. This proposed rule would also align river mile numbers with the United States Coast Pilot and delete bridges from the regulations that have been removed from the waterway and make the regulation easier to read and less confusing to the mariner.

DATES: Comments and related material must reach the Coast Guard on or before May 19, 2017.

ADDRESSES: You may submit comments identified by docket number USCG–2017–0212 using Federal eRulemaking Portal at <http://www.regulations.gov>.
