

coordination. USACE–MVN expects to better define the issues of concern and the methods that will be used to evaluate those issues through the scoping process.

5. *Environmental Consultation and Review.* USACE–MVN anticipates developing an EIS that meets NEPA requirements of several federal agencies evaluating whether to authorize and/or fund the proposed project. At this time the cooperating agencies includes: EPA, DOI, NOAA, NMFS, USFWS, and USDA. Other federal interests in the development of the EIS include those related to NMFS's obligations under the MMPA and the NRDA LA TIG Federal trustees' obligations under OPA NRDA regulations, Final Programmatic Damage Assessment and Restoration Plan and Final Programmatic Environmental Impact Statement, and the Consent Decree entered into in *In re: Oil Spill by the Oil Rig "Deepwater Horizon" In the Gulf of Mexico*. In addition to the federal interests noted above for general development of the EIS, USFWS will assist in documenting existing conditions and assessing effects of project alternatives through the Fish and Wildlife Coordination Act consultation procedures. Consultation will be accomplished with USFWS and NMFS concerning threatened and endangered species and their critical habitat per the Endangered Species Act. NMFS will be consulted regarding the effects of this proposed action on Essential Fish Habitat per the Magnuson-Stevens Fisheries Conservation and Management Act. USACE–MVN anticipates CPRA will submit an application for an incidental take authorization to NMFS in accordance with the MMPA.

Questions regarding consultation or compliance requirements described herein, will be directed to the appropriate jurisdictional agency.

6. The USACE–MVN will consult with the Louisiana State Historic Preservation Officer (SHPO) and the appropriate Tribal Historic Preservation Officers (THPO), per the National Historic Preservation Act.

7. *Availability.* The DEIS is presently scheduled to be available for public review and comment by April 30, 2020. All comments received throughout the review process will become part of the administrative record for the proposed MBSD project and subject to public release.

8. *NRDA LA TIG NOI: The Deepwater Horizon* NRDA LA TIG has published a Notice of Initiation of Restoration Planning that seeks to facilitate public involvement and streamline future processes by specifically seeking public comment on a controlled river diversion

in Barataria Basin, such as the MBSD, in a future Restoration Plan under OPA. To facilitate the potential consideration of the MBSD under OPA, it is the intent of the NRDA LA TIG Trustees to assist the USACE in the preparation of the EIS for the Mid-Barataria Sediment Diversion.

Type of Review: Non-substantive change to an existing collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 52.

Abstract: On March 9, 2017, pursuant to the Congressional Review Act (CRA) (5 U.S.C. 801–808), Congress approved a joint resolution disapproving the U.S. Department of Education's (Department's) regulations related to State plans, including consolidated State plans, statewide accountability systems, and data reporting. The President signed the Congressional resolution on March 27, 2017, which means that the regulations have no force or effect. As a result, the Department updated the assurances that each State must submit in order to receive FY 2017 funding to align only with the statutory assurances required in ESEA Section

8304. The revised assurances template includes an annotated version of ESEA Section 8304 which specifically references consultation requirements and two certifications that SEAs are assuring to by completing the assurances template. Finally, we included a reference, with no associated burden, to other approved forms the SEA will need to complete.
