DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Resource Conservation and Recovery Act

On April 25, 2017, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Northern District of New York in the lawsuit entitled *United States v. Falcon Petroleum, LLC, RGLL, Inc., and GRJH, Inc.*, Civil Action No. 1:16-cv-1522.

This settlement resolves the United States' allegations that Falcon Petroleum, LLC, RGLL, Inc., and GRJH, Inc. ("Defendants") violated the Resource Conservation and Recovery ("Act") and its implementing regulations set forth at 40 CFR part 280 at eight gas stations in New York, all of which contain underground storage

tanks ("tanks") owned and operated, or owned and leased, by Defendants. The United States' claims against Defendants stem from the company's alleged failure to install overfill protection equipment; perform release detection on tanks and associated piping; equip piping with automatic line leak detectors; perform annual testing of an automatic line leak detector on piping; and maintain adequate records of release detection monitoring.

The proposed Consent Decree resolves these allegations by requiring that Defendants implement injunctive relief valued at approximately \$218,000, undertake a Supplemental Environmental Project ("SEP") valued at approximately \$220,000, and pay a \$60,000 civil penalty. As part of the injunctive relief, Defendants will install, or upgrade to, fully automated electronic release detection monitoring equipment at seven gas stations in New York. As part of the SEP, Defendants will install a centralized monitoring system in twenty-six stations that span three states: Twenty-three in New York, two in Connecticut and one in New Hampshire. The centralized monitoring system will transmit to and collect at one central location the information gathered at each gas station equipped with the electronic release detection monitoring equipment. This technology will therefore assist Defendants to respond to potential releases and other alarm events.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Falcon Petroleum, LLC, RGLL, Inc., and GRJH, Inc.*, D.O.J. Ref. No. 90-7-1-09896. All comments must be submitted no later than thirty (30) days after the publication date of this notice. This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the Office of Management and Budget (OMB) under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1225-0087. The DOL intends to seek continued approval

for this collection of information for an additional three years.

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed. Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the ICR. Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
