Environmental Protection Agency

40 CFR Part 52

Air Plan Approval; Rhode Island; Repeal of NO\x Budget Trading Program

Agency: Environmental Protection Agency.

Action: Proposed rule.

Summary: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the State of Rhode Island. This revision removes Air Pollution Control (APC) Regulation 41, entitled “NO\x Budget Trading Program” (Rhode Island NBP) from the Rhode Island SIP. The Rhode Island NBP was a market-based cap and trade program, which was created to reduce emissions of nitrogen oxides (NO\x) from power plants and other large combustion sources in response to EPA’s 1998 NO\x SIP Call. By 2009, EPA’s Clean Air Interstate Rule (CAIR) had effectively replaced NO\x Budget Trading Programs in eastern states. CAIR has since been replaced by the Regional Haze State Implementing Plan (SIP) portion of the State of Rhode Island and the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule which is located in the Rules section of this Federal Register.

Deborah A. Szaro,
Acting Regional Administrator, EPA New England.

For further information contact: Alison C. Simcox, Air Quality Planning Unit, Air Programs Branch (Mail Code OEP05–02), U.S. Environmental Protection Agency, Region 1, 5 Post Office Square, Suite 100, Boston, Massachusetts 02109–3912; (617) 918–1684; simcox.alison@epa.gov.

Supplementary information: In the Final Rules section of this Federal Register, EPA is approving the State’s SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule which is located in the Rules section of this Federal Register.

Deborah A. Szaro,
Acting Regional Administrator, EPA New England.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval of California Air Plan Revisions, Eastern Kern Air Pollution Control District and Imperial County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Eastern Kern Air Pollution Control District (EKAPCD) and Imperial County Air Pollution Control District (ICAPCD) portions of the California State Implementation Plan (SIP). These revisions were submitted by the California Air Resources Board (CARB) in response to EPA’s May 22, 2015 finding of substantial inadequacy and SIP call for certain provisions in the SIP related to affirmative defenses applicable to excess emissions during startup, shutdown, and malfunction (SSM) events. EPA is proposing approval of the SIP revisions because the Agency has determined that they are in accordance with the requirements for SIP provisions under the Clean Air Act (CAA or the Act).

DATES: Any comments must arrive by May 31, 2017.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–OAR–2017–0096 at https://www.regulations.gov, or via email to Andrew Steckel, Rulemaking Office Chief at Steckel.Andrew@epa.gov. For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be removed or edited from Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e., on the web, cloud, or other file sharing system).

FOR FURTHER INFORMATION CONTACT: Christine Vineyard, EPA Region IX, (415) 947–4125, vineyard.christine@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.

I. What action is the EPA proposing today?

The EPA is proposing to approve revisions to the California SIP. The revisions will remove from the EKAPCD and ICAPCD portions of the California SIP provisions related to affirmative defenses that sources could assert in the event of enforcement actions for violations of SIP requirements during SSM events. Removal of the affirmative defense provisions from the SIP will make the EKAPCD and ICAPCD portions of the SIP consistent with CAA requirements with respect to this issue. EKAPCD and ICAPCD are retaining the affirmative defenses solely for state law purposes, outside of the EPA approved SIP. Removal of the affirmative defenses from the SIP is also consistent with the EPA policy for exclusion of “state law only” provisions from SIPs, and will serve to minimize any potential confusion about the inapplicability of the affirmative defense provisions in federal court enforcement actions.
