SUPPLEMENTARY INFORMATION:

Background

Section 3513 of the National Defense Authorization Act for Fiscal Year 2017 (NDAA) requires MARAD to convene a Sexual Assault Prevention and Response Working Group (SAPR) that will prepare a report to Congress. The statute requires the SAPR Working Group to examine methods to improve the prevention of, and response to, sexual harassment, sexual assault, or other inappropriate conduct, as well as methods to improve the shipboard climate, particularly in the context of the Sea Year experience of United States Merchant Marine Academy cadets. To assist in the process, MARAD is seeking public input to focus on the following seven (7) issues:

1. Options that could promote a climate of honor and respect, and a culture that is intolerant of sexual harassment, sexual assault, or other inappropriate conduct and those who commit it, with operators of vessels of the United States;

2. Strategies to raise awareness of sexual harassment, sexual assault, or other inappropriate conduct with operators of vessels of the United States;

3. Options that could be implemented by the operators of vessels of the United States that would remove any barriers to the reporting of sexual harassment, sexual assault, or other inappropriate conduct that occurs during a cadet's Sea Year experience and protect the victim's confidentiality;

4. Potential program or policy to improve the prevention of, and response to, incidents of sexual harassment, sexual assault, or other inappropriate conduct;

5. Potential program or policy requiring crews to complete a sexual harassment and sexual assault prevention and response training program before the cadet's Sea Year that includes—

(A) fostering a shipboard climate—

- (i) that does not tolerate sexual harassment, sexual assault, or other inappropriate conduct;

- (ii) in which persons assigned to vessel crews are encouraged to intervene to prevent such potential incidents; and

- (iii) that encourages victims to report any incident of sexual harassment, sexual assault, or other inappropriate conduct; and

(B) promoting an understanding of the needs of, and the resources available to, a victim after an incident of sexual harassment, sexual assault, or other inappropriate conduct;

6. Other feasible changes to Sea Year training at the Academy, and corresponding changes to curricula, to improve prevention of and response to incidents of sexual harassment, sexual assault, and other inappropriate conduct; and

7. How vessel operators could ensure the confidentiality of a report of sexual harassment, sexual assault, or other inappropriate conduct in order to protect the victim and prevent retribution.

SUPPLEMENTARY INFORMATION:

I. Background

Congress enacted the Terrorism Risk Insurance Act of 2002 (TRIA)¹ based, in part, upon its recognition that widespread unavailability of terrorism risk insurance “could seriously hamper ongoing and planned construction, property acquisition, and other business projects, generate a dramatic increase in rents, and otherwise suppress economic activity.”² TRIA requires insurers to make coverage available for certain lines of commercial property and casualty insurance.³ To assist insurers with the financial exposure resulting from this required offer of coverage, TRIA established the Terrorism Risk Insurance Program (TRIP or Program), under which certain losses resulting from an “act of terrorism” (as defined by TRIA) are eligible for reimbursement through the Program. The Program is administered in the Department of Treasury (Treasury) by the Secretary of the Treasury (Secretary) with the assistance of the Federal Insurance Office.⁴

TRIA originally authorized the Program for a three-year period ending December 31, 2005. The Program has since been reauthorized three times, most recently in the Terrorism Risk Insurance Program Reauthorization Act of 2015 (2015 Reauthorization Act),⁵ which extended the Program until December 31, 2020. Among other reforms and changes, the 2015 Reauthorization Act requires insurers participating in the Program to submit to the Secretary, beginning in calendar year 2016, “such information regarding insurance coverage for terrorism losses of such insurers as the Secretary considers appropriate to analyze the effectiveness of the Program” This information and data includes information regarding: (1) Lines of insurance with exposure to such losses; (2) premiums earned on such coverage; (3) geographical location of exposures; (4) pricing of such coverage; (5) the take-up rate for such coverage; (6) the amount of private reinsurance for acts of terrorism purchased; and (7) such other

matters as the Secretary considers appropriate.⁶

Treasury conducted a voluntary data call in 2016, to avoid inadvertently imposing an unanticipated level of burden on participating insurers. In that year, before implementing regulations were effective, Treasury utilized a single reporting template approved by the Office of Management and Budget (OMB) on an emergency basis without a formal public notice and comment period. Data collected from the insurers that elected to respond to this request formed the basis for Treasury’s first report under the 2015 Reauthorization Act addressing the effectiveness of the Program.⁷

On December 21, 2016, Treasury issued Final Rules concerning, among other things, its data collection authorities under the Program.⁸ On December 27, 2016, Treasury published the data collection forms that it proposed to use for the 2017 data call, and invited the public to provide comments concerning those proposed forms.⁹ Treasury received seven comments concerning the forms.¹⁰ In response, and as discussed further below, Treasury has made a number of modifications to the forms and has also in certain ways modified the manner in which Treasury will collect the identified data. OMB has approved the use of these forms under Control Number 1505-0257.

II. Data Collection Forms and Procedures

The collection templates proposed for use in calendar year 2017 are based upon the form created for use in calendar year 2016, although certain changes were made based upon experience derived from the 2016 voluntary data call. The principal
