SUPPLEMENTARY INFORMATION:

Background

Title 49 U.S.C. 47134 establishes an airport privatization pilot program and authorizes the Department of Transportation to grant exemptions from certain Federal statutory and regulatory requirements for up to ten airport privatization projects. The application procedures require the FAA to publish a notice in the **Federal Register** after review of a preliminary application. The FAA must publish a notice of receipt of the final application in the **Federal Register** for public review and comment for a sixty-day period. The STL preliminary application is available for public review at <http://www.regulations.gov>. The docket number is FAA Docket No. 2017-0325.

Title 49 U.S.C. 47134 authorizes the Secretary of Transportation, and through delegation, the FAA Administrator, to exempt a sponsor of a public use airport that has received Federal assistance, from certain Federal requirements in connection with the privatization of the airport by sale or lease to a private party. Specifically, the Administrator may exempt the sponsor from all or part of the requirements to use airport revenues for airport-related purposes, to pay back a portion of Federal grants upon the sale or lease of an airport, and to return airport property deeded by the Federal Government upon transfer of the airport. The Administrator is also authorized to exempt the private purchaser or lessee from the requirement to use all airport revenues for airport-related purposes, to the extent necessary to permit the purchaser or lessee to earn compensation from the operations of the airport.

On September 16, 1997, the FAA issued a Notice of procedures to be used in applications for exemption under the Airport Privatization Pilot Program (62 FR 48693). A request for participation in the pilot program must be initiated by the filing of either a preliminary or final application for exemption with the FAA.

The City of St. Louis submitted a preliminary application to the FAA for St. Louis Lambert International Airport on March 22, 2017; the preliminary application is accepted for review, with the same filing date. The City may select a private operator, negotiate an agreement and submit a final application to the FAA for exemption.

If the FAA accepts the final application for review, the application will be made available for public review and comment for a 60-day period.

Issued in Washington, DC, on April 21, 2017.

Director, Office of Airport Compliance and Management Analysis.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to renew exemptions of 97 individuals from its prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with insulin-treated diabetes mellitus (ITDM) from operating commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals with ITDM to continue to operate CMVs in interstate commerce.

DATES: Each group of renewed exemptions was effective on the dates stated in the discussions below and will expire on the dates stated in the discussions below.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, 202-366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, SE., Room W64-224, Washington, DC 20590-0001. II. Background

On March 7, 2017, FMCSA published a notice announcing its decision to renew exemptions for 97 individuals from the insulin-treated diabetes mellitus prohibition in 49 CFR 391.41(b)(3) to operate a CMV in interstate commerce and requested comments from the public (82 FR 12899). The public comment period ended on April 6, 2017, and no comments were received.

As stated in the previous notice, FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

The physical qualification standard for drivers regarding diabetes found in

49 CFR 391.41(b)(3) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Conclusion

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2017–0133]

Commercial Driver's License (CDL): Application for Exemption; U.S. Custom Harvesters, Inc. (USCHI)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that the U.S. Custom Harvesters, Inc. (USCHI) has requested an exemption from the “K” intrastate restriction on commercial driver's licenses (CDLs) held by custom harvester drivers operating in interstate commerce. The Federal Motor Carrier Safety Regulations (FMCSRs) exempt drivers of commercial motor vehicles (CMVs) controlled and operated by a person engaged in interstate custom

harvesting, including the requirement that drivers be at least 21 years old. However, many younger custom harvester drivers hold CDLs with an intrastate-only (or “K”) restriction. This has caused drivers of USCHI member companies to be cited during roadside inspections in a different State, as some officers interpret the “K” restriction to mean that the license is invalid outside the State of issuance, even when the younger driver is operating under the custom harvester exemption. This is an issue not only for individual drivers, but also for the custom harvester employing those drivers, whose safety record is adversely affected. FMCSA requests public comment on USCHI's application for exemption.

DATES: Comments must be received on or before May 31, 2017.
