

Housing and Community Development Act of 1992 and will not accept additional applications at this time. HUD may in the future proceed with the program or a revised program; however, HUD would, at a minimum, have to determine the following before proceeding:

(a) If the Initiative is still needed to provide debt financing to small, affordable properties, or whether the availability of long-term, low-cost permanent financing to support small properties has increased substantially since the Initiative was first proposed, specifically through new and expanded federally backed financing programs offered through Fannie Mae and Freddie Mac;

(b) The regulatory requirements and restrictions that would be imposed on property owners/borrowers participating in the Initiative regarding tenant rents and incomes, and whether these requirements would impose unfair and inappropriate economic burden on small property owners who provide affordable market rents but do not otherwise receive a government funded housing subsidy;

(c) Whether existing Federal Housing Administration multifamily lending programs, including the newly expanded Tax Credit Pilot Program which supports new construction and substantial rehabilitation projects, adequately serve the debt financing needs of small properties that support affordable rental housing; and,

(d) If the provisions of the Initiative as published adequately account for HUD's share of risk assumed for loans originated under the Initiative, or need to be modified in a revised Initiative notice.

General Deputy Assistant Secretary for Housing.

Title: Indian Water Rights Settlements: Economic Analysis.

Form: None.

OMB Control Number: None.

Abstract: The Secretary's Indian Water Rights Office (SIWRO) is tasked with overseeing and coordinating the Federal Government's Indian water rights settlement program and is undertaking a study on the economic outcomes associated with Indian water rights settlements. The purpose of the study is to identify and track social and economic changes that occur as a result of the implementation of enacted settlements. The Office of Indian Water Rights is located within the Secretary's

Office. The Office leads, coordinates, and manages the Department's Indian water rights settlement program (109 Departmental Manual 1.3.E(2)).

Indian reserved water rights are vested property rights for which the United States has a trust responsibility, with the United States holding legal title to such water in trust for the benefit of Indian tribes. Federal policy supports the resolution of disputes regarding Indian water rights through negotiated settlements. Settlement of Indian water

rights disputes breaks down barriers and helps create conditions that improve water resources management by providing certainty as to the rights of all water users who are parties to the disputes. At a time of increasing competition for Federal funds, it is important to quantify and describe the economic impacts and net benefits of the implementation of enacted Indian water rights settlements.

SUPPLEMENTARY INFORMATION:

Background.—On June 21, 2012, the Department of Commerce issued antidumping and countervailing duty orders on imports of high pressure steel cylinders from China (77 FR 37377 and 37384). The Commission is conducting reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR parts 201, Subparts A and B and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Country* in these reviews is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations, the Commission defined a single *Domestic Like Product* to consist of high pressure steel cylinders coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission found a single *Domestic Industry* consisting of Norris Cylinder Company, the sole U.S. producer of high pressure steel cylinders.

(5) The *Order Date* is the date that the antidumping and countervailing duty orders under review became effective. In these reviews, the *Order Date* is June 21, 2012.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the
