NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

NARA—2017–038

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when agencies no longer need them for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives of the United States and to destroy, after a specified period, records lacking administrative, legal, research, or other value. NARA publishes notice in the Federal Register for records schedules in which agencies propose to destroy records they no longer need to conduct agency business. NARA invites public comments on such records schedules.

DATES: NARA must receive requests for copies in writing by May 31, 2017. Once NARA finishes appraising the records, we will send you a copy of the schedule.
you requested. We usually prepare appraisal memoranda that contain additional information concerning the records covered by a proposed schedule. You may also request these. If you do, we will also provide them once we have completed the appraisal. You have 30 days after we send to you these requested documents in which to submit comments.

**ADDRESSES:** You may request a copy of any records schedule identified in this notice by contacting Records Appraisal and Agency Assistance (ACRA) using one of the following means:

- **Mail:** NARA (ACRA); 8601 Adelphi Road; College Park, MD 20740–6001.
- **Email:** request.schedule@nara.gov.
- **FAX:** 301–837–3698.

You must cite the control number, which appears in parentheses after the name of the agency that submitted the schedule, and a mailing address. If you would like an appraisal report, please include that in your request.

**FOR FURTHER INFORMATION CONTACT:**

Margaret Hawkins, Director, by mail at Records Appraisal and Agency Assistance (ACRA); National Archives and Records Administration; 8601 Adelphi Road; College Park, MD 20740–6001, by phone at 301–837–1799, or by email at request.schedule@nara.gov.

**SUPPLEMENTARY INFORMATION:** NARA publishes notice in the Federal Register for records schedules they no longer need to conduct agency business. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

Each year, Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing records retention periods and submit these schedules for NARA's approval. These schedules provide for timely transfer into the National Archives of historically valuable records and authorize the agency to dispose of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless otherwise specified. An item in a schedule is media neutral unless noted otherwise. An agency may apply the disposition instructions to records regardless of the medium in which it creates or maintains the records. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is expressly limited to a specific medium. (See 36 CFR 1225.12(e).)

Agencies may not destroy Federal records without Archivist of the United States' approval. The Archivist approves destruction only after thoroughly considering the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value.

In addition to identifying the Federal agencies and any subdivisions requesting disposition authority, this notice lists the organizational unit(s) accumulating the records (or notes that the schedule has agency-wide applicability when schedules cover records that may be accumulated throughout an agency); provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction); and includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it also includes information about the records. You may request additional information about the disposition process at the addresses above.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–275 and 50–323; NRC–2016–0151]

Pacific Gas and Electric Company; Diablo Canyon Power Plant, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; withdrawal by applicant.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Pacific Gas and Electric Company (PG&E) to withdraw its application dated May 12, 2016, for the proposed amendments to Facility Operating License Nos. DPR–80 and DPR–82 for Diablo Canyon Power Plant (DCPP), Units 1 and 2. The proposed amendments would have modified the DCPP Technical Specifications (TSs) to adopt Nuclear Energy Institute (NEI) 94–01, Revision 2A, “Industry Guideline for Implementing Performance-Based Option of 10 CFR part 50, Appendix J.”

ADDITIONAL INFORMATION: The NRC has granted the request of PG&E to withdraw its application dated May 12, 2016 (ADAMS Accession No. ML16146A100), for the proposed amendments to Facility Operating License Nos. DPR–80 and DPR–82 for DCPP, Units 1 and 2, located in San Luis Obispo County, California.

The proposed amendments would have modified DCPP, Units 1 and 2, TS 5.5.16, “Containment Leakage Rate Testing Program,” to replace the reference to Regulatory Guide 1.163, “Performance-Based Containment Leak-Test Program,” September 1995 (ADAMS Accession No. ML003740058), with a reference to NEI 94–01, Revision 2–A, “Industry Guideline for Implementing Performance-Based Option of 10 CFR part 50, Appendix J.” October 2008 (ADAMS Accession No. ML100620847). In addition, the proposed amendments would have modified TS 5.5.16 to remove an exception under paragraph 5.16.a.3 for a one-time 15-year Type A test interval. The Commission has previously issued a proposed finding that the amendment involves no significant hazards determination published in the Federal Register on August 2, 2016 (81 FR 50733). However, by letter dated March 30, 2017 (ADAMS Accession No. ML17089A688), PG&E requested to withdraw the proposed amendment.

Dated at Rockville, Maryland, this 24th day of April 2017.

For the Nuclear Regulatory Commission.

Balwant K. Singal,
Senior Project Manager, Plant Licensing Branch IV, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.
