FOR FURTHER INFORMATION CONTACT: Helen Jackson, NSTAC Designated Federal Officer, Department of Homeland Security, (703) 235-5321 (telephone) or helen.jackson@hq.dhs.gov (email).

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under *the Federal Advisory Committee Act*, 5 U.S.C. Appendix (Pub. L. 92-463). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications policy.

Agenda: The committee will meet in an open session on May 18, 2017, to receive remarks from Department of Homeland Security (DHS) leadership and other senior Government officials regarding the Government's current cybersecurity initiatives and NS/EP priorities. Additionally, the committee will receive an overview of the Administration's NS/EP communications and cybersecurity priorities. Finally, the NSTAC members will deliberate and vote on the NSTAC Emerging Technologies Strategic Vision Subcommittee's study of the near- and long-term NS/EP implications of emergent and expected information and communications technologies.

The committee will also meet in a closed session to receive a classified briefing regarding cybersecurity threats and discuss future studies based on the Government's NS/EP priorities and perceived vulnerabilities.

Basis for Closure: In accordance with 5 U.S.C. 552b(c), *The Government in the Sunshine Act*, it has been determined that two agenda items require closure, as the disclosure of the information discussed would not be in the public interest.

The first of these agenda items, the classified briefing, will provide members with a cybersecurity threat briefing on vulnerabilities related to the communications infrastructure. Disclosure of these threats would provide criminals who seek to compromise commercial and Government networks with information on potential vulnerabilities and mitigation techniques, weakening the Nation's cybersecurity posture. This briefing will be classified at the top secret level, thereby exempting disclosure of the content by statute. Therefore, this portion of the meeting is required to be closed pursuant to 5 U.S.C. 552b(c)(1)(A) & (B).

The second agenda item, a discussion of potential NSTAC study topics, will address areas of critical cybersecurity vulnerabilities and priorities for Government. Government officials will share data with NSTAC members on initiatives, assessments, and future security requirements across public and private sector networks. The information will include specific vulnerabilities within cyberspace that affect the United States' information and communication technology infrastructures and proposed mitigation strategies. Disclosure of this information to the public would provide criminals with an incentive to focus on these vulnerabilities to increase attacks on the Nation's critical infrastructure and communications networks. As disclosure of this portion of the meeting is likely to significantly frustrate implementation of proposed DHS actions, it is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

Dated: April 21, 2017.

Helen Jackson,

Designated Federal Officer for the NSTAC.
