DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Docket No. AC17–127–000]
South Central MCN LLC; Notice of Petition for Waiver

Take notice that on April 27, 2017, South Central MCN LLC filed a petition for waiver of the requirement to file a FERC Form 3–Q for the periods of January 1, 2017 through March 31, 2017, and April 1, 2017 through June 30, 2017, as required by 18 CFR 141.400, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Room 2A, Washington, DC 20426.

This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Docket No. CP16–498–000]
Columbia Gas Transmission, LLC; Notice of Availability of the Environmental Assessment for the Proposed B-System Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the B-System Project, proposed by Columbia Gas Transmission, LLC (Columbia) in the above-referenced docket. Columbia requests authorization to modernize and upgrade Columbia’s B-System pipelines by replacing and abandoning existing pipeline as well as constructing new pipeline and appurtenant facilities in Fairfield and Franklin Counties, Ohio.

The EA assesses the potential environmental effects of the construction and operation of the B-System Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Army Corps of Engineers and Ohio Department of Natural Resources participated as cooperating agencies in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

As part of its proposed B-System Project, Columbia would:
• Abandon in place approximately 17.5 miles of 20-inch-diameter pipeline, remove two associated mainline valves (mileposts 7.7 and 10.9), install two gas heaters, and remove various exposed pipe segments on Columbia’s Line B–105;
• construct approximately 14.0 miles of 20-inch-diameter replacement pipeline on Columbia’s Line B–111;
• construct approximately 0.1 mile of 4-inch-diameter replacement pipeline on Columbia’s Line B–121;
• construct approximately 0.5 mile of 4-inch-diameter replacement pipeline on Columbia’s Line B–130;
• construct approximately 7.6 miles of new 20-inch-diameter pipeline (“Line K–270”) connecting Columbia’s K-System and B-System; and
• remove, replace, restore, and install various appurtenances including connections, valves, aboveground piping, one regulation facility, and pig launchers and receivers.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. In addition, the EA is available for public viewing on the FERC’s Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502–8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before May 30, 2017.

For your convenience, there are three methods you can use to file your comments with the Commission. In all instances please reference the project docket number (CP16–498–000) with your submission. The Commission

1 A “pig” is a tool that the pipeline company inserts into and pushes through the pipeline for cleaning the pipeline, conducting internal inspections, or other purposes.
