

antidumping duty order. Because the ITC determined that imports of ferrovanadium from Korea are materially injuring a U.S. industry, unliquidated entries of such merchandise from Korea entered, or withdrawn from warehouse, for consumption are subject to the assessment of antidumping duties.

As a result of the ITC's final affirmative determination, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price of the merchandise, for all relevant entries of ferrovanadium from Korea. Antidumping duties will be assessed on unliquidated entries of ferrovanadium from Korea entered, or withdrawn from warehouse, for consumption on or after November 1, 2016, the date of publication of the *Preliminary Determination*,⁴ but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC's final injury determination as further described below.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct CBP to continue to suspend liquidation on all relevant entries of ferrovanadium from Korea. These instructions suspending liquidation will remain in effect until further notice.

The Department will also instruct CBP to require cash deposits equal to the estimated weighted-average dumping margins indicated below. Accordingly, effective on the date of publication of the ITC's final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins listed below.⁵ The all-others rate applies to all producers or exporters not specifically listed.

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination

⁴ See *Ferrovanadium from the Republic of Korea: Affirmative Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination and Extension of Provisional Measures*, 81 FR 75806 (November 1, 2016) ("Preliminary Determination").

⁵ See Section 736(a)(3) of the Act.

may not remain in effect for more than four months, except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of an exporter accounting for a significant proportion of ferrovanadium from Korea, the Department extended the four-month period to six months.⁶ The Department published the *Preliminary Determination* in this investigation on November 1, 2016. Therefore, the extended period, beginning on the date of publication of the *Preliminary Determination*, ended on April 29, 2017. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, the Department will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of ferrovanadium from Korea entered, or withdrawn from warehouse, for consumption after April 29, 2017, the date on which the provisional measures expired, until and through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**. Suspension of liquidation will resume on the date of publication of the ITC's final determination in the **Federal Register**.

Estimated Weighted-Average Dumping Margins

The estimated weighted-average antidumping duty margins are as follows:

Exporter/Producer	Weighted-average dumping margins (percent)
Korvan Ind. Co., Ltd.	3.22
Fortune Metallurgical Group Co., Ltd.	54.69
Woojin Ind. Co., Ltd.	54.69
All-Others	3.22
