Federal Energy Regulatory Commission

[Docket No. DI17–6–000]

City of Hailey: Notice of Declaration of Intention and Soliciting Comments, Protests, and Motions To Intervene

Take notice that the following application has been filed with the Commission and is available for public inspection:

a. Application Type: Declaration of Intention.

b. Docket No: DI17–6–000.

c. Date Filed: April 10, 2017.

d. Applicant: City of Hailey.

e. Name of Project: Indian Creek Spring Hydroelectric Project.

f. Location: The proposed Indian Creek Spring Hydroelectric Project would be located on Indian Creek, near the Town of Hailey, in Blaine County, Idaho.

g. Filed Pursuant to: Section 23(b)(1) of the Federal Power Act, 16 U.S.C. 817(b)(2012).

h. Applicant Contact: Mariel Miller, Public Works Director, City of Hailey, 115 Main Street South, Hailey, ID 83333, telephone: (208) 788–9815, ext. 24; email: mariel.miller@haileycityhall.org.

i. FERC Contact: Any questions on this notice should be addressed to Jennifer Polardino, (202) 502–6437, or email: Jennifer.Polardino@ferc.gov.

j. Deadline for filing comments, protests, and motions to intervene is: 30 days from the issuance date of this notice by the Commission.

The Commission strongly encourages electronic filing. Please file comments, protests, and motions to intervene using the Commission’s eFiling system at https://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ecomment.asp. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCONLineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number DI17–4–000.

k. Description of Project: The proposed Indian Creek Spring Hydroelectric Project would consist of:

1. An existing spring collection system with an additional six new laterals of perforated pipe and a collection box; (2) two small pumps to bring water to the spring house; (3) an overflow drain and a cut off wall bringing water into the City’s existing collection system; (4) a Cipolletti weir; (5) a 2.5-mile-long, 12-inch-diameter penstock; (6) a powerhouse containing one generator with a rated capacity of 69 kilowatts; (7) an 800-foot-long transmission line connecting the power from the powerhouse to a point of interconnection with the existing utility system; and (8) appurtenant facilities.

When a Declaration of Intention is filed with the Federal Energy Regulatory Commission, the Federal Power Act requires the Commission to investigate and determine if the project would affect the interests of interstate or foreign commerce. The Commission also determines whether or not the project:

1. Would be located on a navigable waterway; 2. Would occupy public lands or reservations of the United States; (3) would utilize surplus water or water power from a government dam; or (4) would be located on a non-navigable stream over which Congress has Commerce Clause jurisdiction and would be constructed or enlarged after 1935.

Locations of the Application: This filing may be viewed on the Commission’s Web site at http://www.ferc.gov/docs-filing/elibrary.asp. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at http://www.ferc.gov/docs-filing/esubscription.asp to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or email FERCONLineSupport@ferc.gov, for TTY, call (202) 502–8659. A copy is also available for inspection and reproduction at the address in item (h) above and in the Commission’s Public Reference Room located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502–8371.

m. Individuals desiring to be included on the Commission’s mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all comments filed, but only those who file a motion to intervene in accordance with the Commission’s Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Filing and Service of Responsive Documents: All filings must bear in all capital letters the title COMMENTS, PROTESTS, and MOTIONS TO INTERVENE, as applicable, and the Docket Number of the particular application to which the filing refers. A copy of any Motion to Intervene must also be served upon each representative of the Applicant specified in the particular application.

p. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency’s comments must also be sent to the Applicant’s representatives.

Dated: May 9, 2017.

Kimberly D. Bose, Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP17–257–000; PF16–10–000]

WBI Energy Transmission, Inc.; Notice of Application

Take notice that on April 26, 2017, WBI Energy Transmission, Inc. (WBI Energy), 1250 West Century Avenue, Bismarck, North Dakota 58503 filed an application pursuant to section 7 (c) of the Natural Gas Act requesting authorization to construct, install, operate and maintain the Valley Expansion Project (Project). Specifically, WBI proposes to construct, install, operate and maintain: (i) Interconnect facilities with Viking Gas Transmission Company in Clay County, Minnesota; (ii) approximately 37.3 miles of 16-inch diameter pipeline in Clay County, Minnesota and Cass County, North Dakota; (iii) approximately 3,000 horsepower electric compressor station in Cass County, North Dakota; and to (iv) replace two existing town border stations and construct a regulator station in Burleigh, Stutsman and Benson Counties, North Dakota. WBI Energy states that the Project will provide an
additional source of natural gas to eastern North Dakota and western Minnesota and enhance system reliability for existing and new customers, all as more fully set forth in the application. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at http://www.ferc.gov using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance, please contact FERC Online Support at FERCONlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

Any questions regarding the proposed project should be directed to Lori Myerchin, Manager, Regulatory Affairs, WBI Energy Transmission, Inc., 1250 West Century Avenue, Bismarck, North Dakota 58503, or at (701) 530–1563, or lori.myerchin@wbienergy.com.

On October 17, 2016, the Commission staff granted WBI Energy’s request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF16–10–000 to staff activities involving the project. Now, as of the filing of this application on April 26, 2017, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP17–257–000, as noted in the caption of this Notice. Pursuant to section 157.9 of the Commission’s rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental impact statement (EIS) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the EIS for this proposal. The filing of the EIS in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s EIS.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding. However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest. Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order. The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on May 30, 2017.

Dated: May 9, 2017.

Kimberly D. Rose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17–409–000; PF17–1–000]

DTE Midstream Appalachia, LLC; Notice of Application for Certificate of Public Convenience and Necessity

Take notice that on May 1, 2017, DTE Midstream Appalachia, LLC (DTE Midstream), 333 Technology Drive, Suite 255, Canonsburg, Pennsylvania 15317, filed with the Federal Energy Regulatory Commission an abbreviated application under Section 7 of the Natural Gas Act requesting a Certificate of Public Convenience and Necessity authorizing DTE Midstream to construct, install, own, operate and maintain a new interstate natural gas pipeline known as the Birdsboro Pipeline Project. DTE Midstream requests issuance of blanket certificates Pursuant to Part 284, Subpart G and Part 157, Subpart F of the Commission’s regulations.

The project will have an initial design capacity of 79,000 Dekatherms per day (Dth/d) and will transport natural gas from a single receipt point at an interconnection with a Texas Eastern Transmission LP (Texas Eastern) interstate pipeline to a single delivery point at a new gas-fired generating facility (Birdsboro Facility), all in Berks County, Pennsylvania. DTE Midstream proposes initial recourse rates and requests approval of its pro forma Tariff as well as approval of certain non-conforming terms in the proposed negotiated rate agreement, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at http://www.ferc.gov using the “e-Library” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at
