the jail jurisdiction point of contact and leadership, facility eligibility, closures and openings, and the feasibility of capturing information on inmate and facility characteristics in the Deaths in Custody Reporting Program (DCRP). BJS requests the addition of 4 questions to the verification calls made to the 3,000 local jails to: (1) Determine whether or not their data management systems maintain an aggregate count of non-U.S. citizens held in their facilities, by conviction status; and (2) assess jails' ability and willingness to report these counts to BJS.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 3,000 respondents, each taking an additional 6 minutes during annual verification calls for the Deaths in Custody Reporting Program—Local Jails collection. This brings the total burden per DCRP respondent to about 30 minutes each year or 1 hour if the jail has a death and submits an individual-level death record.

6. *An estimate of the total public burden (in hours) associated with the collection:* There is an estimated 3,245 total burden hours associated with all three jail collections annually.
