SUPPLEMENTARY INFORMATION:

Title: Roadway Safety Data Capability Assessment.

Background: Federal Highway Administration (FHWA) is initiating a large-scale effort to expand its relationships with the States to develop a better understanding of their data capabilities and conditions of data collection. The effort, known as the Roadway Safety Data Capabilities Assessment, will be conducted in 50 States, the District of Columbia and Puerto Rico. The two major objectives are to (1) create a mechanism by which a national and State-specific gap analyses could be conducted to identify opportunities to improve capabilities and (2) provide tools and assistance to assist States in overcoming those gaps. The results will provide a detailed understanding (for FHWA and the States themselves) of the needs for complete, accurate roadway, crash, and traffic volume data for use in safety analysis. The assessment will yield both a quantitative understanding of each State's capability (using a capability maturity model) and State-specific action plans in the key areas of:

- Roadway inventory data collection and technical standards
- Data analysis tools and uses
- Data management and governance
- Data integration and expandability
- Performance management

The results will also be useful for States and FHWA in their efforts to develop programs and make improvements in roadway safety management.

Respondents: 50 State DOT participants the District of Columbia and Puerto Rico.

Frequency: Once every 5 years.

Estimated Average Burden per Response: Approximately 36 hours per participant over a year.

Estimated Total Annual Burden Hours: Approximately 1,728 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: May 11, 2017.

Michael Howell,

Information Collection Officer.
